TITLE 3—THE PRESIDENT

PROCLAMATION 2963

COPYRIGHT EXTENSION: DENMARK

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the President is authorized, in accordance with the conditions prescribed in section 9 of title 17 of the United States Code, which includes the provisions of the act of Congress approved March 4, 1909, 35 Stat. 1075, as amended by the act of September 25, 1941, 55 Stat. 732, to grant an extension of time for fulfillment of the conditions and formalities prescribed by the copyright laws of the United States of America, with respect to works first produced or published outside the United States of America and subject to copyright or to renewal of copyright under the laws of the United States of America, by nationals of countries which accord substantially equal treatment to citizens of the United States of America; and

WHEREAS satisfactory official assurances have been received that since March 1, 1913, citizens of the United States have been entitled to obtain copyright protection for their works in Denmark on substantially the same basis as citizens of Denmark without the need of complying with any formalities, provided such works secured protection in the United States; and

WHEREAS, by virtue of a proclamation by the President of the United States of America, dated April 9, 1910 (36 Stat. 2685), citizens of Denmark are, and since July 1, 1909, have been, entitled to the benefits of the aforementioned act of March 4, 1909, other than the benefits of section 1 (e) of that act; and

WHEREAS, by virtue of a proclamation by the President of the United States of America, dated December 9, 1920 (41 Stat. 1810), the citizens of Denmark are, and since December 9, 1920, have been, entitled to the benefits of section 1 (e) of the aforementioned act of March 4, 1909:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by the aforesaid title 17, do declare and proclaim:

That with respect to (1) works of citizens of Denmark which were first produced or published outside the United States of America on or after September 3, 1939, and subject to copyright under the laws of the United States of America, and (2) works of citizens of Denmark subject to renewal of copyright under the laws of the United States of America on or after September 3, 1939, there has existed during several years of the time since September 3, 1939, such disruption or suspension of facilities essential to compliance with the conditions and formalities prescribed with respect to such works by the copyright laws of the United States of America as to bring such works within the terms of the aforesaid title 17, and that, accordingly, the time within which compliance with such conditions and formalities may take place is hereby extended with respect to such works for one year after the date of this proclamation.

It shall be understood that the term of copyright in any case is not and cannot be altered or affected by this proclamation, and that, as provided by the aforesaid title 17, no liability shall attach under the said title for lawful uses made or acts done prior to the effective date of this proclamation in connection with the above-described works, or in respect to the continuance for one year subsequent to such date of any business undertaking or enterprise lawfully entered into prior to such date involving expenditure or contractual obligation in connection with the exploitation, production, reproduction, circulation, or performance of any such work.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

EXECUTIVE ORDER 10323

TRANSFERRING CERTAIN FUNCTIONS AND DELEGATING CERTAIN POWERS TO THE SMALL DEFENSE PLANTS ADMINISTRATION

By virtue of the authority vested in me by the Defense Production Act of 1950, as amended (50 U. S. C. App. 2061), and as President of the United States, it is hereby ordered as follows:

SECTION 1. There are hereby transferred from the Department of Commerce to the Small Defense Plants Administration the functions with respect to

(1) any assistance given to small-business establishments concerning Government procurement,

(2) the furnishing of advice to small-business establishments concerning the approval and operation of small-business production pools,

(3) the classification of manufacturing concerns according to size,

(4) economic studies of small-business defense problems, exclusive of so much of such studies as is necessary to be made by the National Production Authority or its successor to determine the effect of actions taken by it,

(5) the furnishing of advice and information concerning Government financial assistance to small business,

(6) the coordination of the inventorying of the available productive capacity of small business, and

(7) the development and distribution of managerial aids for small business, excluding that part thereof which is performed for or otherwise relates to educational institutions

which were on December 1, 1951, administered by the Office of Small Business in the National Production Authority, Department of Commerce.

SEC. 2. The functions hereinabove transferred shall be administered by the Small Defense Plants Administrator or, subject to his direction and control, by such officers and employees of the Small Defense Plants Administration as he shall designate.

SEC. 3. Officers of the Government exercising functions which are pertinent to the responsibilities of the Small Defense Plants Administration shall facilitate the discharge of those responsibilities by keeping the Small Defense Plants Administrator currently informed with respect to the exercise of such functions, including prospective actions, and by providing for participation in deliberations affecting small businesses by representatives of the Small Defense Plants Administration.

SEC. 4. There shall be transferred to the Small Defense Plants Administration so much of the personnel, records, property, and unexpended balances of appropriations, allocations, and other funds of the Department of Commerce as the Director of the Bureau of the Budget shall, with the approval of the President, determine to relate primarily to the functions transferred by section 1 of this order.

SEC. 5. The provisions of sections 902 and 903 of Executive Order No. 10161, as amended (including those with respect to subpena), are hereby made applicable to the Small Defense Plants Administrator with respect to his functions under section 714 of the Defense Production Act, as amended, and under this order.

SEC. 6. To the extent that any provision of any prior Executive order or directive is inconsistent with the provisions of this order, the latter shall control.

HARRY S. TRUMAN

THE WHITE HOUSE,
February 5, 1952.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

MISCELLANEOUS AMENDMENTS

The following amendments are effective upon publication in the FEDERAL REGISTER.

1. Paragraphs (g), (i), and (s) of § 6.101 are amended to read as set out below. The amendments consist in an increase in the amount of salary that is specified in the paragraphs. In paragraph (g) the amount is increased from $900 to $1,020; in paragraph (i) from $150 to $175; in paragraph (s) from $1,050 to $1,180. As amended, the paragraphs will read as follows:

§ 6.101 *Entire executive civil service.* * * *

(g) NC/PD. Any position in which the appointee will receive compensation aggregating not more than $1,020 per annum, the duties of which are part-time or intermittent, but such appointments shall not be for job employment. In Washington, D. C., such appointments shall be subject to the prior approval of the Commission.

* * * * *

(i) NC/PD. Positions on the Isthmus of Panama, except: Accountant, architect, architectural designer, bookkeeper, calculating machine operator, chemist, clerk (paying more than $175 in United States currency per month), dietitian, draftsman, employee counselor, medical technician, personnel aide, personnel assistant, pharmacist, physician, playground director, statistician, stenographer, storekeeper, surgeon, trained nurse, typist, harbor personnel of the Quartermaster Corps, Department of the Army, air traffic controller and air traffic communicator, Civil Aeronautics Administration, and Veterans' Administration Representative for the Panama Canal Zone with duty station at Balboa, Canal Zone.

* * * * *

(s) NC/PD. Temporary, part-time, or intermittent positions of student assistant when the appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be bona fide students at high schools or accredited colleges or universities pursuing courses related to the field in which employed. No person shall be employed under this provision (1) in a position of a routine clerical type; or (2) in excess of 130 working days in any consecutive period of one year; or (3) at a total compensation exceeding $1,180 during such period of one year.

2. Paragraph (a) (5) of § 6.106 is amended to read as set out below. The amendment consists in the increase in the amount of salaries specified in the subparagraph from $900 to $1,020. As amended, the subparagraph will read as follows:

§ 6.106 *Department of the Navy.*—(a) *General.* * * *

(5) NC/PD. Student trainees in naval shipyards, whose salaries shall not aggregate more than $1,020 a year. Only bona fide students engaged in the study of naval architecture shall be eligible for appointment under this subparagraph. Employment under this subparagraph shall not exceed 90 working days a year.

3. Paragraph (c) is added to § 6.160 as follows:

§ 6.160 *Small Defense Plants Administration.* * * *

(c) Two Special or Expert Assistants to the Administrator.

4. Section 6.220 is added as follows:

§ 6.220 *Small Defense Plants Administration.* (a) The initial appointments to the positions of a Regional Director and a Deputy Regional Director in each of the 14 regions. Persons so appointed may be reassigned, promoted or demoted to any of the above positions, subject, in the case of promotions, to the prior approval of the Commission.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp. E. O. 9973, June 26, 1948, 13 F. R. 3600; 3 CFR, 1948 Supp.)

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

RANGE CONSERVATIONIST

Section 24.15 is amended to read as follows:

§ 24.15 *Range Conservationist, GS-454-5*—(a) *Educational requirement.* Applicants must have successfully completed one of the following:

(1) A full 4-year course in an accredited college or university leading to a bachelor's degree, with major work in range management, agriculture, animal husbandry, botany or forestry, which has included the following courses:

(i) One course in each of the following: (*a*) Plant ecology; (*b*) plant physiology; (*c*) soils; (*d*) systematic botany or plant taxonomy.

(ii) Three courses in each of the following groups: (*a*) Animal husbandry (one course in animal nutrition and feeding and two courses in any combination of courses in breeds and breeding, livestock management, livestock production, market classes of livestock); (*b*) agronomy, general botany, forest management, wildlife management, or zoology.

(iii) Four courses in range management (any combination of general range management, range utilization and maintenance, range plants, range history and laws, range or ranch economics, range survey); or

(2) Courses as outlined in subparagraph (1) of this paragraph in an accredited college or university plus additional appropriate education or experience which, when combined with the courses as outlined in subparagraph (1) of this paragraph, will total four years of education and experience and give the applicant a technical knowledge comparable to a 4-year college course.

(b) *Duties.* Range conservationists will assist in making range surveys and conservation plans for farms, ranches, and other grazing areas, including determining the suitability of land for grazing use and classifying and mapping range sites and determining their condition; assemble information on current range management practices; assist farmers and ranchers in the development of detailed conservation plans which will provide for the adoption of such suitable conservation and management practices as fencing, water development, seeding, noxious plant control, rotation or deferred grazing, proper intensity and season of use as necessary to improve the range; they will be required to walk over plowed land, climb hills and fences, and ford streams while carrying equipment weighing from 30 to 40 pounds; explain conservation plans to farmers and ranchers and work with and assist them in establishing and maintaining range conservation and management practices; keep records and make reports of work accomplished; and perform other related duties.

(c) *Knowledge and training requisite for performance of duties.*

NOTE: The provisions of § 24.36 (d) and (e) are applicable to this section.

(Sec. 11, 58 Stat. 390; 5 U. S. C. 860. Interprets or applies sec. 5, 58 Stat. 388; 5 U. S. C. 854)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] ROBERT RAMSPECK,
Chairman.

[F. R. Doc. 52-1495; Filed, Feb. 5, 1952; 8:50 a. m.]

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

MISCELLANEOUS AMENDMENTS

1. Paragraphs (a) (2) and (b) (2) of § 24.111 are amended to read as follows:

§ 24.111 *Soil Scientist (soil classification and mapping), GS-470-5; and Soil Scientist (land classification and survey), GS-470-5*—(a) *Educational requirement.* * * *

(2) *Soil Scientist (land classification and survey).* Applicants must have successfully completed one of the following:

(i) A full 4-year course in an accredited college or university leading to a bachelor's degree with major study in soils or closely related subjects having to do with the management and production of field crops, vegetable crops, orchards or woodland, and including at least 10 semester hours in soils; or

(ii) Courses in soils, or in closely related subjects having to do with the management and production of field crops, vegetable crops, orchards or woodland totaling at least 30 semester hours and including 10 semester hours in soils; plus additional appropriate experience or education which when combined with the 30 semester hours will total 4 years of education and experience and give the applicant a technical knowledge comparable to that which would have been acquired through successful completion of a 4-year college course.

(b) *Duties.* * * *

(2) Soil Scientists (land classification and survey) identify, map, and describe units of land that are significant in farming, ranching, or other land management. They interpret physical land facts in terms of capability of land for crops, grazing, forests, and wildlife, and develop recommendations for the use, management, and conservation of different kinds of land. They will be required to walk over plowed land, climb hills and fences and ford streams while carrying equipment weighing from 30 to 40 pounds. They make simple soil tests and interpret the results and perform other related duties. The duties of this position require a working knowledge of the basic principles, concepts, and terminology of soil science.

2. Paragraph (a) (27) of § 24.36 is hereby revoked.

3. A new § 24.113 is hereby added as follows:

§ 24.113 *Soil Conservationist, GS-457-5*—(a) *Educational requirement.* Applicants must have successfully completed one of the following:

(1) A full 4-year course in an accredited college or university leading to a bachelor's degree with a major in soil conservation or one of the related agricultural sciences; or

(2) Courses in soil conservation or one of the related agricultural sciences acceptable toward a degree in an accredited college or university totaling at least 40 semester hours, plus additional appropriate experience or education which, when combined with the 40 semester hours, will total 4 years of education or experience and give the applicant a technical knowledge comparable to that which would have been acquired by the successful completion of a 4-year college course. The 40 semester hours must include at least one course in soils or soil conservation and at least one course in each of three of the following five groups: woodland management, plant ecology, or economic biology; farm crops or pasture management; feeds and feeding or animal nutrition; farm or range management or agricultural economics; farm drainage or hydraulics, hydrology or plane surveying. Applicants for positions in range country must show at least one course in range management.

(b) *Duties.* Soil Conservationists advise on or perform technical or other professional and scientific work in the field of soil conservation, involving farm planning and soil or water conservation practices. They will be required to walk over plowed land, climb hills and fences and ford streams while carrying equipment weighing from 30 to 40 pounds and will perform other duties as required. The duties of this position require a practical working knowledge of the basic principles, concepts, and terminology of water conservation, sound land use, and the control and prevention of soil erosion.

(c) *Knowledge and training requisite for performance of duties.*

NOTE: The provisions of § 24.36 (d) and (e) are applicable to this section.

(Sec. 11, 58 Stat. 390; 5 U. S. C. 860. Interprets or applies sec. 5, 58 Stat. 388; 5 U. S. C. 854)

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration, Department of Agriculture

Subchapter F—Banks for Cooperatives

[FCA Order 538]

PART 71—LOAN POLICIES

LENDING LIMITS OF CENTRAL BANK FOR COOPERATIVES

Part 71 of Chapter I, Title 6, Code of Federal Regulations, is hereby amended by inserting a new section between §§ 71.1 and 71.2 as follows:

§ 71.1a *Lending limits of the Central Bank for Cooperatives.* The total loans from the Central Bank for Cooperatives to any one farmers' cooperative association, exclusive of commodity loans, or of operating capital loans to finance commodities within the limits of Government price support programs, shall not at any time exceed 25 percent of the net worth of the bank.

(Secs. 34, 38, 48 Stat. 262, as amended, 264, as amended; 12 U. S. C. 1134j)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-379]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

APPLICATION OF CERTAIN TRANSPORT CATEGORY PERFORMANCE REQUIREMENTS TO THE C-46 TYPE AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of January 1952. It appearing that:

1. On July 6, 1951, the Board issued a notice of proposed rule making under which the standards applicable to the C-46 with respect to the maximum certificated weight for passenger operations would be modified.

2. Thereafter in the light of certain protests and requests for hearing as to the factual basis for the proposed rule, the Board instituted a proceeding on the matter of the modification of the requirements with respect to the weight of the C-46 in the interest of safety, and set it down for hearing before an Examiner; this proceeding is still pending before the Board, the Examiner's report, containing his findings of fact but no recommended conclusions, having just been issued.

3. In the last 50 days there have been three accidents in common carrier operations involving C-46 aircraft; two of these accidents resulted in the loss of 82 lives.

4. The occurrence of these accidents has resulted in the Board's institution of formal investigations to determine the causes of such accidents and informal investigations concerning the safety of operations and maintenance practices and procedures of the specific carriers concerned in the accidents.

5. Preliminary data obtained from the formal and informal investigations and from other sources of information available to the Board, have indicated an apparent laxness in operating practices and procedures followed by the carriers investigated in some or in all of the following aspects:

(a) Failure to maintain pilot training and proficiency at a desirably high level;

(b) Failure to ensure aircraft and engine maintenance at a desirably high level; and

(c) Failure on the part of the companies and their personnel to follow certain operating procedures established in accordance with the Civil Air Regulations, including those pertaining to maximum operating weights.

6. The accident record of the C-46 aircraft in irregular carrier operation since 1947 shows 39 accidents. Seven involved the loss of power of one engine, 24 the factor of pilot error, and 9 the failure on the part of other personnel including maintenance personnel.

Five of the seven accidents involving loss of one engine occurred on take-off, and all five of such accidents at least partially resulted from inadequate maintenance. In the sixth case, one engine failed in cruising flight, and soon thereafter the other failed necessitating a forced landing in the ocean. In the seventh case, fire in one engine occurred during normal flight necessitating an emergency landing.

According to best estimates, the irregular carriers operated 32,598,000 C-46 plane miles during 1950-51 with the rate of 6.4 accidents per 10 million plane miles. The Board regards this rate as being unnecessarily high and not in line with the accident rates on other aircraft.

7. The Civil Air Regulations currently provide two general standards for airworthiness—the Normal category (Part 3) and the Transport category (Parts 4a, 4b). The DC-3 and the Lockheed 18 were both introduced into service prior to the time the transport category requirements were adopted, and consequently are not certificated under these standards. However, both these airplanes will at sea level meet and even exceed the performance requirements of Part 4b. The C-46 was certificated under Part 3 of the Civil Air Regulations and cannot comply with the take-off performance requirements of the transport category at the maximum certificated weight at which it is now operated (see Examiner's report, Docket No. 5107, p. 11, f. n. 9). Thus, the C-46 is the only large multi-engine aircraft in general passenger use which at sea level will not comply with the take-off performance requirements of Part 4b, at the maximum certificated weight at which it is operated, i. e., 48,000 pounds.

8. The provision in Part 4b of the Civil Air Regulations for transport category aircraft which performance-wise would, if applied, constitute the effective limit of the maximum certificated take-off weight of the C-46 is that which requires the single-engine rate of climb, in the take-off configuration with the landing gear retracted and the inoperative propeller windmilling, to be not less than 0.035 $V_{s_1}^2$; where V_{s_1} is the established stalling speed in the pertinent configuration. In determining the maximum take-off weights under the Transport category, it is assumed that (1) the foregoing configuration will be encountered shortly after a take-off during which one engine fails at the most critical point during the ground run and the pilot continues the take-off, and (2) that the pilot will not start to feather the propeller until a height of 50 feet is reached.

On the basis of the foregoing and recognizing that safety in the air is accomplished not by any single means, but by constant attention to the improvement of maintenance and of operating practices and procedures, by constant attention to the development of greater pilot skill and proficiency and by development of appropriate standards for the performance of aircraft, and further recognizing that many accidents are caused, not by a single factor but by a combination of circumstances which may embrace any or all of the foregoing factors, the Board is of the opinion and finds that in the case of the C-46 aircraft, an emergency exists which requires that immediate action should be taken to apply to this aircraft standards of performance more nearly comparable to those met by other aircraft used in passenger service which will necessarily result in lowering the maximum weight of this aircraft, thus providing a further margin of safety. In so doing the Board recognizes that the present accident record of the C-46 aircraft does not demonstrate conclusively that any single accident is entirely the result of the weight factor, but has in mind the truism that the lighter the total weight of the aircraft, the higher its operating performance can be expected to be and the easier it will be to fly safely. The Board in making its present determination is acting only upon the present state of facts and without prejudice to a determination as to what the ultimate standards for determining the maximum weight of the aircraft should be.

The Board's action is designed to increase the safety factor for the interim period which will be necessary before the Board can finally decide all of the various questions involved in this problem and before such program as may be found necessary can be fully implemented. It is anticipated that the Board in conjunction with the Administrator of Civil Aeronautics will proceed with its efforts to arrive at a conclusion as to the proper safety rules under which the C-46 aircraft is to be operated in passenger service on a continuing basis and that the maintenance and operating practices and procedures of the operators of the C-46 aircraft will be more strictly supervised and examined.

The Board, in a notice of proposed rule making to be published concurrently with the issuance of this regulation,[1]

[1] See F. R. Doc. 52-1497 in the Proposed Rule Making Section, *infra*.

proposes to examine the question whether it is necessary in the interest of safety to apply, on a permanent basis, the Part 4b performance requirements, with the exception of those applicable to the second segment of the take-off climb, to C–46 aircraft operated for the carriage of passengers for remuneration or hire. In the interim, and pending the accomplishment of the foregoing, which cannot be completed soon enough to obviate the necessity for this emergency regulation, it is the Board's intention to require immediately that any C–46 operated in passenger-carrying service be limited to a maximum weight of 45,000 pounds. This weight was determined substantially in accordance with the take-off performance requirements of the transport category, but with the aircraft permitted to meet the second segment rate of climb requirement as though it were in the third segment configuration, i. e., the propeller feathered, and with no further weight reduction for airport elevations.

The precise maximum weight at which the C–46 aircraft will meet the standards which the Board desires to impose cannot be definitely ascertained at this time since uncontested data are not available. In his report, the Examiner mentions the weight of 45,400, 44,300, and 43,600 lbs., as possible weights at which the standards mentioned above would be met, depending upon what data are relied on. As an interim measure the Board has decided to use a value of 45,000 lbs. While it is realized that this value is not an exact one in an engineering sense, the Board believes it to be a fair one. As this is a value to be used only during the interim period, the Board does not intend to propose different values to account for the differences between the C–46 E and F models, or between the aircraft equipped with the Hamilton Standard and Curtiss propellers. The limitations imposed herein are in addition to those already in effect, and this action in no way authorizes operation of C–46 aircraft in excess of maximum weights already established pursuant to other existing requirements.

Temporarily, at least, the Board intends to permit the irregular operators to continue to operate their C–46 aircraft under the nontransport category operating limitations of Part 42 of the Civil Air Regulations, namely §§ 42.80–42.83. It is believed that the application of these operating rules to the C–46 has resulted in increased safety and that they are adequate for the present. The Board is currently considering this entire matter further and may propose modifications to these operating rules which would be applicable to the C–46 and other nontransport category aircraft at a later date. The Board intends to apply this modified transport category requirement only to aircraft being operated in passenger service and it is proposed, therefore, that all C–46 aircraft used in cargo service, at least for the present, continue to be operated at the weights determined in accordance with the existing standards applicable to such aircraft.

In reaching the determination on an emergency temporary basis to apply standards which will lower the maximum weight of the C–46 aircraft in passenger service, the Board is not unmindful that there will be certain economic effects on the carriers who operate this aircraft in passenger service. However, the weight at which the Board has determined the aircraft should be flown pending final disposition of the matter is approximately the weight at which some of the C–46 aircraft are already being operated in passenger service by a number of irregular carriers and the Board's action herein will not prevent the continued operation of the aircraft carrying substantial traffic loads. Furthermore, the operation of the C–46 over shorter distances will make it possible to minimize the loss of passenger-carrying capacity which is now figured on the basis of fairly long-range operations. In any event, the Board finds that such economic losses as may accrue to the operators of the C–46 in passenger service as a result of the Board's action are more than outweighed by the additional safety sought to be accomplished.

In view of the foregoing, the Board is of the opinion that an emergency requiring immediate action exists in respect of safety in air commerce, that notice and public procedure hereon are impracticable and that the following Special Civil Air Regulation is required in the interest of safety.

In order that an appropriate basis for final rule-making action with respect to the performance standards to be met by the C–46 aircraft operated for the transportation of passengers by irregular carriers may be fully explored, the Board is issuing concurrently herewith a notice of proposed rule-making proposing performance standards consistent with the interim action taken herein, as a possible alternative to the proposal issued on July 6, 1951, which based the ultimate take-off weight upon a zero rate of climb in the take-off configuration. The Board will receive written comments and will hear oral argument on such notice, at the same time as oral argument is heard in the C–46 investigation referred to in paragraph 2 of this Special Regulation.

Accordingly, the Civil Aeronautics Board hereby makes and promulgates a Special Civil Air Regulation effective immediately until further order of the Board, to read as follows: "After 12:01 a. m., eastern standard time, February 3, 1952 all C–46 type aircraft used for the carriage of passengers for remuneration or hire shall be limited not to exceed a maximum take-off and landing weight of 45,000 lbs."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 1005, 54 Stat. 1007, 1023; 49 U. S. C. 551, 645)

By the Civil Aeronautics Board.[2]

[SEAL] M. C. MULLIGAN, *Secretary.*

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 3.1 of Part 3, paragraphs (h), (l) (3), and (s) are amended to read as follows:

§ 3.1 *Persons included in the acts in addition to commissioned officers and enlisted men.* * * *

(h) *Personnel of Lighthouse Service.* The personnel of the Lighthouse Service transferred to the service and jurisdiction of the War and Navy Departments by Executive Order pursuant to the act of August 29, 1916, are included. The Lighthouse Service was consolidated with the Coast Guard under the President's Reorganization Plan II of May 9, 1939, effective July 1, 1939. (53 Stat. 813)

* * * * *

(l) *Reserve Officers and members of the Enlisted Reserves; members of the National Guard of the United States and the federally recognized National Guard of the several States, Territories, and the District of Columbia.* * * *

(3) *Rating criteria and rates.* The rating criteria and rates payable based on the service of a Reservist or National Guardsman shall be those provided in Veterans Regulation 1 (a), Part I or Part II, as amended (38 U. S. C. ch. 12), as applicable. As to commencing date of awards see § 3.212 (e).

* * * * *

(s) *Coast Guard.* Personnel of the United States Coast Guard who served on or after January 28, 1915. (Acts of July 2, 1930, and July 18, 1941.) (*Provided*, That no award of disability compensation under Public Law 182, 77th Congress, to former personnel of the United States Coast Guard who served on or after January 28, 1915, and prior to July 2, 1930, shall be effective prior to the date of receipt on or after July 18, 1941, of an acceptable application, formal or informal, as required in disability claims generally.) The Executive Order of November 1, 1941, placed the Coast Guard under the jurisdiction of the Navy. By Executive Order 9666, dated December 28, 1945, the Coast Guard was returned to the jurisdiction of the Treasury as of January 1, 1946.

* * * * *

2. Section 3.62 is amended to read as follows:

§ 3.62 *Eligibility of persons discharged to accept a commission or to change status.* The discharge of a service person to accept appointment as a commissioned or warrant officer, or from a reserve or regular commission to accept a commission in the other component, or to reenlist, prior to the date set forth in paragraph (a) or (b) of this section, whichever is applicable, is a qualified and conditional discharge and does not constitute a termination of the person's war service for compen-

sation and pension purposes. The entire service in such case constitutes one period of service, and the conditions of final termination of active service will govern and determine basic eligibility to compensation or pension.

(a) World War I—Prior to November 11, 1918.

(b) World War II—Prior to the date the service person was eligible for discharge from war service, under the point or length of service system, or under any other criteria in effect.

3. In § 3.67 (c), subparagraph (1) is deleted and former subparagraphs (2) through (7) are redesignated (1) through (6), respectively.

§ 3.67 *Disability of veteran (1) as a direct result of Armed conflict, or (2) while engaged in extra hazardous service, including such service under conditions simulating war, or (3) while the United States is engaged in war (Public Laws 359, 77th Cong., 868, 80th Cong.*

* * *

(c) * * *

(1) [Deleted.]

* * * * *

4. In § 3.80, paragraph (a) is amended to read as follows:

§ 3.80 *Service-connection for chronic or tropical diseases.* (a) Under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), a chronic or tropical disease becoming manifest to a degree of 10 percent or more within 1 year (within 2 years as to multiple sclerosis or within 3 years as to pulmonary tuberculosis) from the date of separation from active wartime service or service within the purview of Public Law 28, 82d Congress, or within 1 year or 2 years as to multiple sclerosis or 3 years as to pulmonary tuberculosis after the date prior to which a disability must have been incurred as provided in Veterans Regulation 1 (a), as amended, whichever is the earlier, will be considered as having been incurred in service when the conditions specified in paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, are met. Service incurrence will be established under paragraph I (a), Part I, Veterans Regulation 1 (a), as amended, for any of the tropical diseases listed in § 3.86 (b), when shown to exist at a time when standard and accepted treatises indicate that the incubation period of the diseases commenced during active service. Under paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, a tropical disease becoming manifest to a degree of 10 percent or more within 1 year from date of separation from service or at a time when standard accepted treatises indicate that the incubation period thereof commenced during active service will be considered as having been incurred in service, when the conditions specified in paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, are met. The factual basis may be established by medical evidence, competent lay evidence, or both. Medical evidence should set forth the physical findings and symptomatology elicited by examination within the 1-year (2-year as to multiple sclerosis or 3-year as to pulmonary tuberculosis) period; and lay evidence should not merely contain conclusions based upon opinion but describe the material and relevant facts as to the veteran's disability observed during such period. Where there is affirmative evidence to show that a chronic disorder is due to an intercurrent disease or injury suffered between the date of separation from active service and the onset of the chronic disorder, service-connection under this section will not be accorded. When service-connection is established, subsequent manifestations of the same chronic disease, unless clearly attributable to intercurrent causes, at no matter how remote a date, are service-connected. This rule does not mean that any manifestation of joint pain, any abnormality of heart action or heart sounds, any urinary findings of casts, or any cough, in service, will permit service-connection of arthritis, disease of the heart, nephritis, or pulmonary disease, first shown as a clear-cut clinical entity at some later date. For the showing of chronic disease in service, there is required a combination of manifestations sufficient to identify the disease entity and sufficient observation to establish chronicity at the time, not merely isolated findings or diagnosis including the word "chronic." When the etiological identity is perfect, as leprosy, tuberculosis, syphilis, etc., there is no requirement of evidentiary showing of continuity. Continuity of symptomatology is required only where the condition noted during service is not in fact shown to be chronic or where the diagnosis of chronicity may be legitimately questioned. When the fact of chronicity during service is not, in the opinion of the adjudicating agency, adequately supported, then there may be reason to require some showing of continuity after discharge to support the claim. Hospital confirmation of such diagnoses made after discharge from service is not routinely required. However, the veteran may well be held at the regional office, hospital, or center for recheck on the following day, particularly for recheck of blood pressure, urinalysis, and further laboratory procedures, if in order. When hospitalization is required, it should not be longer than absolutely necessary for confirmation of the diagnosis.

* * * * *

5. In § 3.86, paragraph (d) (4) is added and paragraphs (h) and (j) are amended to read as follows:

§ 3.86 *Chronic and tropical diseases under Public No. 2, 73d Congress, as amended.* * * *

(d) * * *

(4) When, in a case in which prior activity of pulmonary or nonpulmonary tuberculosis has been satisfactorily established in accordance with § 3.133, with evidence as to the present condition establishing inactivity or arrest, without, however, evidence to establish activity or inactivity over the intervening period, activity of the disease will be presumed for 1 year only, following the last date of activity established by the evidence. The beginning date of graduated ratings for arrested tuberculosis will be the day following expiration of this 1-year period.

* * * * *

(h) Where service-connection is granted under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, the effective date of evaluation of disability will be in accordance with § 3.148 (a), and when claim is filed more than 1 year after date of separation from active wartime service or service within the purview of Public Law 28, 82d Congress, or after 1 year prior to which a disability must have been incurred (2 years as to multiple sclerosis or 3 years as to pulmonary tuberculosis), as provided in Veterans Regulation 1 (a), as amended, whichever is the earlier, notation will be made of the items of evidence showing the existence of the disease within the 1-year period (2 years as to multiple sclerosis or 3 years as to pulmonary tuberculosis): *Provided*, That as to bronchiectasis, calculi of the kidney, bladder, or gall bladder, cirrhosis of the liver, coccidioidomycosis, osteomalacia, Raynaud's disease, scleroderma, tumor of the peripheral nerves, peptic ulcers (gastric or duodenal) and the tropical diseases, resultant disorders or diseases originating because of therapy administered in connection with such diseases or as a preventative thereof, listed in paragraph (b) of this section, service-connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, the evaluation will not be prior to June 24, 1948: *Provided further*, That as to active pulmonary tuberculosis or multiple sclerosis service-connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, by Public Laws 573, 81st Congress, and 174, 82d Congress, the evaluations will not be prior to June 23, 1950, or October 12, 1951, respectively.

* * * * *

(j) The effective date of an award based upon the foregoing provisions will be in accordance with § 3.212: *Provided*, That no award for bronchiectasis, calculi of the kidney, bladder or gall bladder, cirrhosis of the liver, coccidioidomycosis, osteomalacia, Raynaud's disease, scleroderma, tumors of the peripheral nerves, peptic ulcers (gastric or duodenal), service-connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, or the tropical diseases and resultant disorders or diseases originating because of therapy administered in connection with such diseases or as a preventative thereof, listed in paragraph (b) of this section, service-connected under paragraph I (c), Part I, or paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, shall be effective prior to June 24, 1948: *Provided further*, That no award for active pulmonary tuberculosis or multiple sclerosis service-connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended by Public Laws 573, 81st Congress, and 174, 82d Congress, shall be made effective prior to June 23, 1950, or October 12, 1951, respectively.

6. In § 3.106, paragraph (a) is amended to read as follows:

§ 3.106 *Evidence to establish service-connection.* (a) Service-connection for

dental disabilities will be established by service records, documentary evidence in the form of reports of examinations (dental or physical), duly certified statements of dentists or physicians, or certified statements of fact from two or more disinterested parties. The disability must be shown to have been incurred in or aggravated by service as provided herein. Statements certified by dentists or physicians must give the claimant's full name, the date he was first examined or treated, the date of subsequent treatments, if any, and contain a complete and detailed statement of the symptoms observed and diagnosis made. The name or number of all defective or missing teeth noted and the character and extent of any pathological condition of the investing tissues observed should be included. If exact dates cannot be given, the expression "on or about" an approximate date may be considered. Vague expressions, such as "sometime after discharge" or "since discharge", will not be accepted. Certified statements from disinterested parties must show the circumstances under which knowledge of the claimant's disability was obtained and as far as possible describe the symptoms and location of the disability observed.

* * * * *

7. Section 3.136 is amended to read as follows:

§ 3.136 *Rating of arrest in nonpulmonary tuberculosis.* Disabilities in different body parts or organs resulting from arrested tuberculosis will be separately evaluated and combined for rating purposes in accordance with the Schedule of Disability Ratings, 1945, and Extensions thereto. The rating of disability from nonpulmonary forms of arrested tuberculosis will be in accordance with the terms of the Schedule of Disability Ratings, 1945, and Extensions thereto, as applied to resulting ankylosis, limitations of motion of joints, degree of fixation or angulation of the vertebral column, etc. Where, by surgical intervention, it has been possible completely to extirpate a tuberculous focus, as in nephrectomy, adenectomy, orchidectomy, amputation of a part, etc., leaving no other tuberculous focus, the rating and statutory award of not less than $60 per month for arrested tuberculosis will be applicable in accordance with the foregoing.

8. In § 3.176, the title and paragraphs (b) and (c) are amended to read as follows:

§ 3.176 *Determination of need for nurse or attendant or regular aid and attendance under Public No. 141, 73d Congress, Veterans Regulation 1 (a), (38 U. S. C. ch. 12), Public No. 2, 73d Congress, the laws reenacted by Public No. 269, 74th Congress, as amended, and under Public Law 149, 82d Congress.*

* * *

(b) Determinations that the veteran is so helpless, solely by reason of service-connected compensable diseases or injuries as to Public Nos. 2 and 141, 73d Congress, or without regard to service-connection under the laws reenacted by Public No. 269, 74th Congress, as amended, or under Public Law 149, 82d Congress, as to be in need of a nurse or attendant or regular aid and attendance will not be based solely upon an opinion that the claimant's condition is such as would require him to be in bed. They must be based on the actual requirement of personal assistance from others. If the claimant is able to be out of bed and can walk around entirely unassisted by others, he cannot generally be regarded as meeting the requirements of the law and regulations; however, the other enumerated types of personal assistance must be considered.

(c) The above contemplates a person totally disabled and in need of a nurse or attendant under the World War Veterans' Act, 1924, as amended, as reenacted by Public No. 141, 73d Congress, or regular aid and attendance under Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), the laws reenacted by Public No. 269, 74th Congress, as amended, or under Public Law 149, 82d Congress. The rates for regular aid and attendance in Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), the laws reenacted by Public No. 269, 74th Congress, as amended, or in Public Law 149, 82d Congress, are not to be added to any other rate provided therein.

9. In § 3.185, paragraph (b) (1) (ii) (*d*) is added as follows:

§ 3.185 *Reexaminations for disability rating purposes.* * * *

(b) (1) *Scheduling examinations.* * * *

(ii) * * *

(*d*) In running award active tuberculosis cases which do not qualify for rating without future scheduled examination by reason of absence of improvement established by examinations at least 5 years apart, examination will be scheduled at 6-month intervals for the first year, thereafter at yearly intervals.

* * * * *

10. Section 3.213 is amended to read as follows:

§ 3.213 *Effective dates of awards pursuant to Part III, Veterans Regulation 1 (a), as amended, (38 U. S. C. Ch. 12).*

(a) Awards pursuant to Part III, Veterans Regulation 1 (a), as amended, will be effective as of the date of the receipt of a claim or the date upon which permanent total disability arose, whichever is the later. When a claim under the cited regulation has been finally denied but a subsequent report of physical examination made by a full-time, part-time, or designated (or fee-basis physician of the Veterans' Administration in connection with compensation, pension, or treatment pursuant to proper authority, issued either prior or subsequent to treatment or an examination report or record within the purview of § 3.216 (c), shows permanent and total disability, such report of examination, hospitalization, or record constitutes an informal claim to reopen. Where the examination or hospitalization was at Veterans' Administration expense, the date of examination or admission to the hospital is the effective date of the award, if otherwise in order. However, where the examination or hospitalization is not at Veterans' Administration expense, the effective date of benefits will be the date of receipt by the Veterans' Administration of the report of hospitalization or examination constituting the claim to reopen, if otherwise in order.

(b) The effective date of pension or increased pension pursuant to section 2, Public Law 149, 82d Congress, is the date of the receipt of the claim, or the date entitlement is shown, whichever is the later, but in no event prior to November 1, 1951.

11. In § 3.237, paragraphs (a), (b) (1), the unnumbered paragraph following (b) (7), and paragraph (c) are amended to read as follows:

§ 3.237 *Additional allowance for nurse and attendant and adjustment of awards during institutionalization*—(a) *General.* If and while a veteran is so helpless on account of a service-connected compensable condition or non-service-connected condition as to be in need of a nurse or attendant or regular aid and attendance (see §§ 3.176, 3.177, and 3.178), there will be allowed in addition to the compensation payable under Title III, Public No. 141, 73d Congress, the sum of $50 per month on and after March 28, 1934, or $60 per month on or after September 1, 1946, or an increased statutory rate under Public No. 2, 73d Congress, as amended, or under Public Law 149, 82d Congress.

(b) *Reductions during hospitalization.* Where a veteran in receipt of additional or increased compensation or pension based upon the need for a nurse or attendant or regular aid or attendance, other than on account of transverse myelitis or paraplegia involving paralysis of both lower extremities together with loss of anal and bladder sphincter control, as a result of severe traumatic lesions of the spinal cord (including the cauda equina) and of the brain, is being furnished hospital treatment, institutional or domiciliary care by the Veterans' Administration and is being furnished with nursing or attendant's service, the award of compensation or pension will be the amount authorized by the rating decision exclusive of any additional or increased amount on account of the need for a nurse or attendant, or regular aid and attendance. In the excepted case a uniform rate of $360 (or $288) per month will be maintained, without deduction on account of being furnished aid and attendance in kind. Due to the different additional amounts to which veterans may be entitled under Public Law 182, 79th Congress, as amended, on account of helplessness requiring regular aid and attendance, and consequent different amounts of reductions when being furnished regular aid and attendance in kind, when institutionalized by the Veterans' Administration, it is necessary to give careful attention to the exact basis of entitlement.

(1) The general rule as to reductions of special monthly compensation of $240 (or $192) per month or more or pension of $120 monthly based upon the need for regular aid and attendance when the veteran is being furnished nursing or attendant's service while receiving hos-

pital treatment, institutional or domiciliary care by the Veterans' Administration is that reduction will be in the additional amount based upon the need for regular aid or attendance. When the pension is being paid under Public Law 149, 82d Congress, the award will be the basic $60 or $72 monthly rate authorized by the rating decision exclusive of the additional amount on account of the need of regular aid and attendance. Corrected visual acuity of 5/200 or less, both eyes, or concentric contraction of the visual field to 5 degrees or less, qualifies for the $120 rate without a showing of the need for aid and attendance. There will be no reduction thereof on account of institutionalization by the Veterans' Administration.

* * * * *

The reduced rate of compensation or pension in such instances will be effective as of the beginning of the maintenance of the disabled veteran in an institution by the Veterans' Administration. The compensation or pension in all cases contemplated herein is subject to the limitations contained in § 3.255.

(c) *Resumption of full rate.* In every case where a beneficiary who is receiving an allowance, increased compensation, or increased pension for a nurse or attendant is admitted to a hospital for treatment as a beneficiary of the Veterans' Administration, a report will be forwarded to the rating board, field office, or the central disability board, claims division, veterans claims service, upon his discharge therefrom, showing the inclusive dates of hospital treatment. Where the additional allowance, increased compensation, or pension for a nurse or attendant has been properly authorized to patients with amputations or in those cases wherein the basic condition requiring a nurse or attendant is essentially permanent as defined in Veterans' Administration claims procedures, or in terminal cases, a redetermination by the rating board following dehospitalization is not required for reinstatement of this benefit. Upon receipt of the necessary notice that such veteran is no longer being maintained in an institution by the Veterans' Administration, appropriate awards action for the purpose stated above will be accomplished at once, and in such instances it will not be necessary to await receipt of the hospital report prior to resuming the additional allowance, increased compensation, or increased pension. In other cases not involving amputations or conditions essentially permanent, the additional allowance or increased compensation or pension for a nurse or attendant may be reawarded only upon a determination by the rating board that the veteran concerned is in further need of such services. The additional allowance or increased compensation for nurse or attendant is not to be reinstated for the purpose of applying the provisions of § 3.9 (e), which are applicable only to the proper running award. Where the veteran is not hospitalized and evidence is received indicating there is no further need for nurse or attendant, the provisions of § 3.9 (e) are for application.

12. In the Provisional Regulations, § 3.1513 is canceled.

§ 3.1513 *Instructions relating to the establishment of a rate of pension for aid and attendance under Part III, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12).* [Canceled.]

13. In Part 4, § 4.195 (a) is amended to read as follows:

§ 4.195 *"Veteran" (other than "veteran of any war"); definition of—*(a) *Persons included.* The term "veteran" (other than a "veteran of any war") for the purpose of adjudicating claims for the direct payment of, or reimbursement for, burial, funeral, and transportation expenses incurred in behalf of deceased veterans where death occurred on or subsequent to October 5, 1940, will include: (1) A veteran discharged or retired from active military or naval service for disability incurred in, or aggravated by, service in line of duty, or (2) a veteran in receipt of compensation for service-connected disability (Public No. 796, 76th Congress, and Section 2, Public No. 866, 76th Congress), or (3) a veteran who served prior to December 7, 1941, in the organized military forces of the Commonwealth of the Philippines while such forces were in the service of the Armed Forces of the United States pursuant to the military order of the President of the United States dated July 26, 1941, and who was either discharged for disability incurred in, or aggravated by, service in line of duty, or was in receipt of compensation for service-connected disability. (Public Law 21, 82d Congress)

* * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective February 6, 1952.

[SEAL] O. W. CLARK,
Deputy Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 20—DISASTER COMMUNICATIONS SERVICE

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 20, "Rules Governing Disaster Communications Service" to conform with recently adopted rules and for clarification of certain procedural rules.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1952;

The Commission having under consideration the rules set forth in Subpart M of Part 11, "Rules Governing Industrial Radio Services" which provide for establishment of a new industrial radio service known as the Industrial Radiolocation Service, adopted pursuant to formal rule-making proceedings in Docket No. 9233, which contemplate, among other things, the sharing of frequencies in the band 1750–1800 kc between the Industrial Radiolocation Service and the Disaster Communications Service; and the Commission also having under consideration the definition of Disaster Communications Service, and the matter of clarifying and interpreting provisions of existing §§ 20.3, 20.13 and 20.26 of Part 20, "Rules Governing Disaster Communications Service";

It appearing, that implementation of the rules governing the new Industrial Radiolocation Service requires certain amendments of Part 20, "Rules Governing Disaster Communications Service" to provide for the sharing of time in the use of frequencies in the band 1750–1800 kc;

It further appearing, that the substance of the amendments herein ordered which relate to the sharing of frequencies with the Industrial Radiolocation Service and establishment and maintenance of liaison between licensees in that service and the Disaster Communications Service, and the definition of the Disaster Communications Service has been the subject of formal rule-making procedures (Docket 9233) resulting in adoption of the aforesaid Subpart M of Part 11 and amendment of § 2.1 of Part 2, and, therefore, further proposed rule-making procedure with respect to the amendment of § 20.3 and addition of new §§ 20.29 and 20.30 is unnecessary;

It further appearing, That the other amendments herein ordered are interpretative and procedural only and, therefore, compliance with the public notice and procedure set forth in section 4 (a) and (b) of the Administrative Procedure Act with respect to amendment of §§ 20.13 and 20.26 herein ordered is unnecessary and impracticable; and

It further appearing, that, since the amendments herein ordered are either already contained in substance in the new Subpart M of Part 11 and in Part 2, or are interpretative of existing rules, this order may be made effective upon publication or at any date thereafter;

It further appearing, that authority for the proposed amendments is contained in sections 4 (i), 301, and 303 (c), (f), and (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective February 1, 1952, Part 20, "Rules Governing Disaster Communications Service" be, and it hereby is, amended, as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Released: January 31, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Amend Part 20, "Rules Governing Disaster Communications Service", as hereinafter set forth:

1. Amend § 20.3 to read as follows:

§ 20.3 *Disaster communications service and station defined.* (a) The disaster

communications service is defined as a service of fixed, land, and mobile stations licensed, or authorized, to provide essential communications incident to or in connection with disasters or other incidents which involve loss of communications facilities normally available or which require the temporary establishment of communications facilities beyond those normally available.

(b) A disaster station is defined as any government or non-government radio station able to function as a fixed, land, or mobile station and authorized, if government, by its controlling federal government agency or licensed, if non-government, by the Federal Communications Commission to operate in the Disaster Communications Service. A single disaster station may consist of more than one unit, each capable of being operated independently as a fixed, land, or mobile station.

2. Amend § 20.13 by redesignating the present paragraphs (b) and (c) as paragraphs (c) and (d), respectively, and inserting the following new paragraph:

(b) A single application for construction permit and station license may be filed to cover all transmitter units normally located or based at one specified fixed location. Separate applications must, however, be filed to cover each separate disaster station, as defined in § 20.3.

3. Amend § 20.26 by the addition of the following new paragraph:

(c) Stations which are entirely automatic in their operation, including automatic modulation of the carrier, shall be exempt from the requirements of subparagraphs (2), (3) and (4) of paragraph (a) of this section, with respect to all operation of such stations which is adequately recorded in the log of any other station of the same disaster network.

4. At the beginning of subpart D, add two new sections to read as follows:

§ 20.29 *Limitations on use of frequencies.* (a) The assigned frequencies in the band 1750–1800 kc are available to stations in this Service upon a shared basis with stations in the Industrial Radiolocation Service also assigned frequencies within that band: *Provided however*, That, except when transmitting in connection with an actual or imminent disaster in any area, stations in the Disaster Communications Service shall not cause harmful interference to stations in the Industrial Radiolocation Service between the times at New Orleans, Louisiana, of sunrise and sunset, as defined in section 26 of the Commission's Standards of Good Engineering Practice Concerning Standard Broadcast Stations;[1] *And provided further*, That stations in the Industrial Radiolocation Service shall not cause harmful interference to stations in the Disaster Communications Service between the times at New Orleans, Louisiana, of sunset and sunrise, as defined in section 26 of the Commission's Standards of Good Engineering Practice Concerning Standare Broadcast Stations, or at any time during an actual or imminent disaster in any area.

(b) During the periods specified in paragraph (a) of this section when stations in the Disaster Communications Service shall not cause harmful interference to stations in the Industrial Radiolocation Service, the operation of a disaster station for the purpose of drills or tests shall not be permitted if the licensee of such station has reason to believe or has been informed that such operation might reasonably be expected to cause harmful interference to stations in the Industrial Radiolocation Service,[2] except by mutual agreement between the licensees in both Services through the channels of liaison prescribed in § 20.30.

§ 20.30 *Liaison with licensees in the Industrial Radiolocation Service.* To carry into effect the requirements of § 20.29, and of § 11.611 of Part 11, "Rules Governing Industrial Radio Services", including a positive means whereby operation in the Industrial Radiolocation Service can be suspended to protect stations in this Service against harmful interference during operation in connection with an actual or imminent disaster or during other hours when stations in this Service have priority on the use of frequencies in the 1750–1800 kc band, there shall be established an adequate and reliable system of notification and liaison between licensees in this Service and licensees in the Industrial Radiolocation Service. The extent and division of responsibility for various phases of the notification and liaison system shall be as follows:

(a) Organization and establishment of a system of liaison within the Industrial Radiolocation Service; the devising of a system for the receipt and distribution of notification information; and the installation, operation and maintenance of such a system shall be the responsibility of licensees in the Industrial Radiolocation Service authorized to operate in the band 1750–1800 kc.

(b) Organization and establishment of a system of liaison within the Disaster Communications Service; and the devising of a method for the dispatch of notification information to the person or persons designated by licensees in the Industrial Radiolocation Service shall be the responsibility of licensees in the Disaster Communications Service authorized to operate in the band 1750–1800 kc.

(c) The responsibility for the initiation of liaison between licensees in the Industrial Radiolocation Service and the licensees in the Disaster Communications Service shall be the responsibility of the former.

(d) Once initiated, the maintenance, review and improvement of liaison between licensees in the two Services shall be the joint responsibility of both groups.

(e) Issuance of notification to suspend operation in the Industrial Radiolocation Service due to an impending or actual disaster shall be the responsibility of licensees in the Disaster Communications Service. Such notification shall be by those means which have been mutually agreed upon as sufficiently adequate, prompt and reliable to effectuate the purpose of this section. Any desired communication method or combination of methods may be utilized, and may be supplemented as necessary in case of failure of the agreed-upon method of notification.

(f) When stations in the Industrial Radiolocation Service have discontinued transmitting to protect disaster communications in connection with an imminent or actual disaster, and when the point has been reached where there is no reasonable possibility that radiolocation transmissions will cause harmful interference to the disaster communications, it shall be the responsibility of licensees in the Disaster Communications Service to communicate this information promptly to the licensees in the Industrial Radiolocation Service so that they may resume operation at will.

(g) The notification and liaison procedure hereby required to be established shall be limited to that geographical area within which there is a reasonable anticipation, determined by actual tests whenever practicable, that harmful interference may be caused by a licensee in the Industrial Radiolocation Service to licensees in the Disaster Communications Service.

[F. R. Doc. 52-1481; Filed, Feb. 5, 1952; 8:48 a. m.]

[1] The average times of sunrise (SR) and sunset (SS) at New Orleans, Louisiana, based on Central Standard Time, as provided in that section are as follows:

	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
SR	7:00	6:45	6:15	5:30	5:15	5:00	5:15	5:30	5:45	6:00	6:30	6:45
SS	5:15	5:45	6:15	6:30	6:45	7:00	7:00	6:45	6:00	5:30	5:00	5:00

[2] Stations in the Industrial Radiolocation Service are authorized to use frequencies in the 1750–1800 kc band under the condition, among others, that such use shall be limited to locations within 150 miles of the shoreline of the Gulf of Mexico.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Part 42]

PERFORMANCE STANDARDS FOR NON-TRANSPORT CATEGORY AIRCRAFT USED IN PASSENGER OPERATIONS

NOTICE OF PROPOSED RULE MAKING

JANUARY 31, 1952.

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of a proposed Special Civil Air Regulation as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received by February 22, 1952, will be considered by the Board before taking further action on the proposed rule. Copies of such communications will be available after February 25, 1952, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

In addition to the receipt of written comments by the aforesaid date, the Board will set this matter down for oral argument concurrently with oral argument before the Board on the matter now pending before it in the C–46 Investigation, Docket No. 5107.

The reasons why the Board believes it necessary to propose action prescribing additional performance standards to be applicable to the C–46 aircraft operated by irregular carriers in passenger service are set forth at length in the Special Civil Air Regulation issued concurrently herewith fixing temporary maximum weights for C–46 aircraft as an emergency action.

The Board's action in promulgating such emergency regulation does not represent a determination, upon all the facts and circumstances which may be before it on final consideration of this matter and in the light of other programs regarding pilot proficiency, maintenance and operating procedures which may be put in effect, that standards further limiting the maximum weight of the C–46 aircraft will necessarily be promulgated. However, on the basis of the facts presently known to the Board as recited in said Special Civil Air Regulation, it appears that such a rule might be in the interest of safety in air commerce. Furthermore, such a rule would ensure substantially the same level of safety during the take-off climb as would the proposal for ultimate application in the Board's notice of proposed rule-making of July 6, 1951.

In view of the foregoing, the Board has under consideration the issuance of a special Civil Air Regulation which would require that all C–46 aircraft used for the carriage of passengers for remuneration or hire be limited to maximum take-off and landing weights determined in accordance with the performance requirements of Part 4b of the Civil Air Regulations, except that in determining the maximum take-off weight the latter shall be limited only to a value at which the aircraft has a rate of climb equal to 0.035 $V_{s_1}^2$ in the take-off configuration with the landing gear retracted but with the inoperative propeller feathered rather than windmilling.

It is further proposed that, if such amendment is promulgated, the present special civil air regulation providing a maximum limit not to exceed 45,000 pounds shall remain in effect unless or until the Administrator, on the basis of such tests and data already compiled or such further tests as he may deem appropriate has determined a maximum take-off and landing weight in accordance with the requirements thus to be prescribed.

The Board recognizes, moreover, the fact that an operator or a group of operators of the C–46 may wish to undertake a program for testing the aircraft to determine its performance under the transport category rules. Further, the Board recognizes that modifications, such as the shortening of the Hamilton Standard propeller which has been reported to result in improved performance of the aircraft, are possible and it would welcome quantitative test data obtained with such modifications.

This amendment is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560)

Dated: January 31, 1952 at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 52-1497; Filed, Feb. 5, 1952; 8:50 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

SOLICITATIONS OF PROXIES

PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration the attached proposals for the amendment of its proxy rules under the Securities Exchange Act of 1934.

All interested persons are invited to submit data, views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before February 29, 1952.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 31, 1952.

1. a. It is proposed to amend the introductory paragraph of § 240.14a–1 (Rule X-14A–1) by deleting the reference therein to definitions contained in the forms for applications and reports. The definitions heretofore contained in the respective forms are now contained in the general rules and regulations so that reference to the forms is no longer necessary. The text of the paragraph as so amended would read as follows:

§ 240.14a–1 *Definitions.* Unless the context otherwise requires, all terms in §§ 240.14a–1 to 240.14a–10 and in Schedule 14A have the same meanings as in the act or elsewhere in the general rules and regulations thereunder. In addition, the following definitions apply unless the context otherwise requires:

b. This rule would be further amended by revising paragraph (a), the definition of the term "associate", to include certain relatives of specified persons who are not now included in the definition. The definition as so amended would read as follows:

(a) *Associate.* The term "associate" used to indicate a relationship with any person, means (1) any corporation or organization (other than the issuer or its subsidiaries) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person, or any relative of such spouse, who has the same home as such person or who, to the knowledge of such person, is employed or retained by or deals with the issuer or any of its affiliates in any capacity.

2. Paragraph (b) of § 240.14a–2 (Rule X-14A–2) provides an exemption from the proxy rules for solicitations by brokers, bankers and others holding securities for other persons, where such solicitations are made without recompense, consist principally of transmitting copies of solicitation material supplied by others and furnishing instructions to beneficial owners as to giving a proxy. This exemption is based on the assumption that the banker, broker or other person is acting in a ministerial capacity and is not making an independent solicitation from the beneficial owner. In order to make clear that this is the only type of solicitation which is exempted by paragraph (b), it is proposed to amend subparagraph (3) thereof to provide that the instructions given must be impartial and, therefore, cannot be slanted to favor either the management or any opposing person or group. The text of subparagraph (3) as so amended would read as follows:

(3) In addition, does no more than impartially instruct the person solicited to forward a proxy to the person, if any, to whom the person solicited desires to

give a proxy, or impartially request from the person solicited instructions as to the authority to be conferred by the proxy.

3. a. Paragraph (a) of § 240.14a–4 (Rule X-14A–4) provides in part that the form of proxy shall identify clearly and impartially each matter or group of related matters intended to be acted upon. It is proposed to amend this paragraph so as to permit the omission of any reference to any proposal as to which discretionary authority may be conferred pursuant to paragraph (c) of this rule. Paragraph (a) would also be amended to require the form of proxy to contain a blank space for dating the proxy. Paragraph (a) as so amended would read as follows:

§ 240.14a–4 *Requirements as to proxy.* (a) The form of proxy (1) shall indicate in bold face type whether or not the proxy is solicited on behalf of the management, (2) shall provide a specifically designated blank space for dating the proxy, and (3) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, whether proposed by the management or by security holders. No reference need be made, however, to proposals as to which discretionary authority is conferred pursuant to paragraph (c) of this section.

b. Paragraph (c) of this rule provides that a proxy may confer discretionary authority with respect to matters which may come before the meeting provided the persons on whose behalf the solicitation is made are not aware at the time the solicitation is made that any such matters are to be presented for action at the meeting. It is proposed to amend this paragraph so as to permit the proxy to confer discretionary authority with respect to matters of which the person making the solicitation was not aware a reasonable time prior to the solicitation. Paragraph (c) as so amended would read as follows:

(c) A proxy may confer discretionary authority with respect to other matters which may come before the meeting, provided the persons on whose behalf the solicitation is made are not aware a reasonable time prior to the solicitation that any such other matters are to be presented for action at the meeting and provided further that a specific statement to that effect is made in the proxy statement or in the form of proxy. A proxy may also confer discretionary authority with respect to any proposal omitted from the proxy statement and form of proxy pursuant to paragraph (c) of § 240.14a–8.

4. a. Paragraph (c) of § 240.14a–5 (Rule X-14A–5) provides that the proxy statement may omit any information contained in other proxy soliciting material furnished to the person solicited if a clear reference is made to the place where such information appears. It is not clear whether the reference must be made to the particular page or paragraph of the document where the information appears or whether it will suffice to refer to the document. In order to make it clear that a reference to the particular document will be sufficient, the paragraph would be amended to read as follows:

(c) There may be omitted from the proxy statement any information contained in any other proxy soliciting material which has been furnished to each person solicited in connection with the same meeting or subject matter if a clear reference is made to the particular document in which such information appears.

b. Paragraph (d) of this rule provides that all printed proxy statements shall be in type "at least as legible" as ten-point leaded type except for financial statements and tabular matter which may be in type "at least as legible" as eight-point leaded type. This phraseology has led to confusion both as to the size of type required and to the amount of leading required. In order to clarify the requirements in this respect, paragraph (d) would be amended to read as follows:

(d) All printed proxy statements shall be set in roman type at least as large as ten-point modern type, except that to the extent necessary for convenient presentation financial statements and other statistical or tabular matter may be set in roman type at least as large as eight-point modern type. All type shall be leaded at least two points.

5. a. Section 240.14a–8 (Rule X-14A–8) prescribes the terms and conditions upon which a security holder may require the management to include a proposal in the management's proxy solicitation material. It is proposed to clarify paragraph (a) by amending it to provide that security holders' proposals must be submitted a reasonable time before the solicitation is made, rather than a reasonable time before the meeting. Paragraph (a) as so amended would read as follows:

§ 240.14a–8 *Proposals of security holders.* (a) If any security holder entitled to vote at a meeting of security holders of the issuer shall submit to the management of the issuer a reasonable time before the solicitation is made a proposal which is a proper subject for action by the security holders and which is accompanied by notice of his intention to present the proposal for action at the meeting, the management shall set forth the proposal in its proxy statement and shall identify the proposal in its form of proxy and provide means by which security holders can make the specification provided for by § 240.14a–4 (b). A proposal so submitted with respect to an annual meeting more than 30 days in advance of a day corresponding to the date on which proxy soliciting material was released to security holders in connection with the last annual meeting of security holders shall prima facie be deemed to have been submitted a reasonable time before the solicitation. This section does not apply, however, to elections to office.

b. Paragraph (b) of this rule provides that if the management opposes a security holder's proposal, it shall also at the security holder's request include a statement setting forth in not more than one hundred words the reasons advanced by him in support of the proposal. It is proposed to amend this paragraph so as to provide that the statement need only be in support of the proposal and that it need not necessarily advance specific "reasons" in support of the proposal. Paragraph (b) as so amended would read as follows:

(b) If the management opposes the proposal, it shall also, at the request of the security holder, include in its proxy statement the name and address of the security holder and a statement of the security holder, in not more than one hundred words, in support of the proposal. Such statement and request shall be furnished to the management at the same time that the proposal is furnished to it. Neither the management nor the issuer shall be responsible for such statement.

c. Paragraph (c) of this rule specifies certain circumstances under which managements may omit proposals submitted by security holders. It is proposed to amend paragraph (c) (1) so as to relieve managements of the necessity of including in their proxy material stockholder proposals designed primarily to promote general economic, political, racial, religious, social or similar causes. Paragraph (c) (1) as so amended would read as follows:

(c) Notwithstanding the foregoing, the management may omit a proposal and any statement in support thereof from its proxy statement and form of proxy under the following circumstances:

(1) If it clearly appears that the proposal is submitted by the security holder primarily for the purpose of enforcing a personal claim or redressing a personal grievance against the issuer or its management or primarily for the purpose of promoting general economic, political, racial, religious, social or similar causes; or

6. It is proposed to adopt a new § 240.14a–10 (Rule X-14A–10) prohibiting the solicitation of any undated or post-dated proxy or any proxy which provides that it shall be deemed to be dated as of any date subsequent to the date on which it is signed. Such proxies are sometimes used as a device to prevent revocation by the security holder. The text of the proposed rule is as follows:

§ 240.14a–10 *Prohibition of certain solicitations.* No person making a solicitation which is subject to §§ 240.14a–1 to 240.14a–10, inclusive, shall solicit—

(a) Any undated or post-dated proxy; or

(b) Any proxy which provides that it shall be deemed to be dated as of any date subsequent to the date on which it is signed by the security holder.

7. a. Item 1 of Schedule 14a requires information as to a security holder's power to revoke his proxy. It is proposed to revise this item in the interest of clarity and directness and to call for

a description of any formal procedure required to be followed in revoking a proxy. The item as so amended would read as follows:

Item 1. Revocability of proxy. State whether or not the person giving the proxy has the power to revoke it. If the right of revocation before the proxy is exercised is limited or is subject to compliance with any formal procedure, briefly describe such limitation or procedure.

b. Item 4 calls for information with respect to the interest of certain persons in matters to be acted upon pursuant to the proxy. As the instruction to this item has been misinterpreted and misapplied, it is proposed to revise such instruction to read as follows:

Instruction. Item 4 does not apply to any interest arising from the ownership of securities of the issuer where the security holder receives no extra or special benefit not shared on a pro rata basis by all other holders of securities of the same class.

c. Item 6 calls for certain information with respect to nominees for election as directors. It is proposed to amend paragraph (c) (3) and (4) so as to require disclosure of the holdings by such nominees of securities of affiliates of the issuer as well as the holdings of the securities of the issuer. These subparagraphs as so amended would read as follows:

(3) State, as of the most recent practicable date, the approximate amount of each class of securities of the issuer or any of its affiliates beneficially owned, directly or indirectly, by such nominee. If the nominee is not the beneficial owner of any such securities, make a statement to that effect.

(4) If more than ten percent of any class of securities of the issuer or any of its affiliates are beneficially owned by such nominee and his associates, state the approximate amount of each class of such securities beneficially owned by such associates, naming each associate whose holdings are substantial.

d. It is proposed to amend paragraph (a) of item 7 so as to permit the remuneration of the individual directors and officers required to be named, as well as the remuneration of all directors and officers as a group, to be shown in aggregate figures. Heretofore such remuneration was required to be broken down to show bonuses separately. It is also proposed to require disclosure of expense allowances and to transfer from this paragraph to paragraph (b) the requirement with respect to showing pensions, retirement annuities and other deferred remuneration. Instruction 3 which calls for information with respect to increases in remuneration would be deleted. Paragraph (a) as so amended would read as follows:

(a) Furnish the information required by the following table as to all remuneration including all expense allowances, paid by the issuer and its subsidiaries during the issuer's last fiscal year to the following persons for services in all capacities:

(1) Each director, and each of the three highest-paid officers, of the issuer whose aggregate remuneration including all expense allowances, exceeded $25,000, naming each such person.

(2) All directors and officers of the issuer as a group without naming them.

Name (if required), or identity of group	Capacities in which services were rendered	Aggregate remuneration other than expense allowances	Aggregate expense allowances

Instructions. 1. This item applies to any person who was a director or officer of the issuer at any time during the fiscal year. However, remuneration is not to be included for any portion of the period during which any such person was not a director or officer of the issuer.

2. Indicate separately remuneration paid during the fiscal year for services rendered during any prior year. Do not include remuneration paid to a partnership in which any director or officer was a partner but refer to information with respect thereto disclosed in response to paragraph (e) or (f).

e. As pointed out with respect to paragraph (a) it is proposed to transfer to this paragraph the requirement with respect to showing pensions, retirement annuities and other deferred remuneration so that such information will be set forth in connection with the estimated annual benefits to be received. The instructions to this paragraph have been revised and clarified. The revised Instruction 2 would provide that it is unnecessary to show the amount set aside or accrued on a group or actuarial basis with respect to any plan which has been qualified as nondiscriminatory under section 165 of the Internal Revenue Code. Paragraph (b) as so amended would read as follows:

(b) Furnish the information required by the following table as to all deferred remuneration for services proposed to be paid by the issuer and its subsidiaries to each director or officer named in answer to paragraph (a) and to all directors and officers of the registrant as a group:

(A) Name (if required) or identity of group	(B) Amount set aside or accrued during registrant's last fiscal year	(C) Total amount set aside or accrued to end of registrant's last fiscal year	(D) Estimated annual benefits proposed to be paid

Instructions. 1. The term "deferred remuneration" includes all pensions, retirement annuities or other deferred remuneration proposed to be paid either before or after retirement or termination of services.

2. Include in Column (B) premiums paid for life insurance or retirement annuities and all amounts paid into any pension fund or trust. However, it is unnecessary to include under this column payments made on a group or actuarial basis pursuant to any plan which has been qualified as nondiscriminatory under section 165 of the Internal Revenue Code.

3. Except as to persons who benefits have already vested, the information called for by column (D) may be given in a table showing the annual benefits payable to persons in specified salary classifications.

f. Paragraph (e) calls for information with respect to transactions between the issuer or its subsidiaries and the management or their associates. It is proposed to amend this paragraph so as to disclose the interest of such persons in transactions between the issuer or its subsidiaries and any other person, and to require, where practicable, a statement of the approximate amount of the interest. Paragraph (e) as so amended would read as follows:

(e) Describe briefly, and where practicable state the approximate amount of, any material interest, direct or indirect, of any of the following persons in any significant transactions since the beginning of the last fiscal year of the issuer, or in any significant proposed transactions, to which the issuer or any subsidiary was or is to be a party: (1) Any person who has been a director or officer of the issuer at any time during that period, (2) any nominee for election as a director, or (3) any associate of any such director, officer or nominee. As to any such transaction involving the purchase or sale of assets by or to the issuer or any subsidiary, otherwise than in the ordinary course of business, state the cost of the assets to the purchaser, and the cost thereof to the seller if acquired by the seller within two years prior to the transaction.

Instructions. 1. The instruction to item 4 shall also apply to this item.

2. Include the name of each person whose interest in any transaction is described and the nature of the relationship by reason of which such interest is required to be described.

g. Paragraph (f) calls for information with respect to the remuneration of certain persons other than directors and officers. It is proposed to amend this paragraph to make it clear that information is required with respect to all remuneration received during the issuer's last fiscal year irrespective of when the services were rendered. This paragraph would be further amended to require a showing of the remuneration of the associates of all officers of the issuer and not only officers whose individual remuneration is required to be stated pursuant to paragraph (a). Paragraph (f) as so amended would read as follows:

(f) Furnish the information required by the following table as to each of the persons specified below who received from the issuer and its subsidiaries during the last fiscal year of the issuer aggregate remuneration in excess of $25,000 for services in all capacities. Indicate the nature of the relationship by reason of which the remuneration of each such person named is required to be given.

(1) Each affiliate of the issuer (other than its subsidiaries);

(2) Each voting trustee of any securities of the issuer;

(3) Each security holder named in answer to Item 5 (d); and

(4) Each associate of any such voting trustee or security holder or of any director, officer, or nominee for election as a director, of the issuer.

Name of person	Capacities in which services were rendered	Aggregate remuneration

h. Item 9 calls for information with respect to bonus, profit-sharing or other remuneration plans which are to be submitted for stockholder approval. It is proposed to amend the item by adding two new instructions. The first instruction would define the term "plan" as used in this item. The second instruction would require the filing of copies

of the plan with the preliminary copies of the issuer's proxy material. The new instructions would read as follows:

Instructions. 1. The term "plan" as used in this item means any proposal which is to be submitted to stockholders with respect to the payment of any bonus, share in profits, or other remuneration to any person or persons.

2. If the plan is set forth in a formal plan, contract or arrangement, three copies thereof shall be filed with the Commission at the time preliminary copies of the proxy statement and form of proxy are filed pursuant to paragraph (a) of § 240.14a–6.

i. Item 10 calls for information with respect to pension, retirement and similar plans which are to be submitted for stockholder approval. It is proposed to amend paragraph (b) of this item to make it more specific as to the information required. A proposed new instruction would also provide that a separate statement of the amount of each annual payment made for the benefit of directors and officers and the amount of each such payment made for employees need not be made with respect to payments made on a group or actuarial basis pursuant to a plan qualified under section 165 of the Internal Revenue Code. Paragraph (b) as so amended would read as follows:

(b) State (1) the approximate total amount necessary to fund the plan with respect to past services, the period over which such amount is to be paid and the estimated annual payments necessary to pay the total amount over such period, (2) the estimated annual payment to be made with respect to current services and (3) the amount of each annual payment to be made for the benefit of (i) directors and officers and (ii) employees.

Instruction. The information called for by (b) (3) need not be given as to payments made on a group or actuarial basis pursuant to a plan qualified under section 165 of the Internal Revenue Code.

j. It is also proposed to amend this item by adding two new instructions. One of these instructions would define the term "plan" as used in the item, and the other would require the filing of copies of the plan with the preliminary copies of the issuer's proxy material. The two instructions would read as follows:

Instructions. 1. The term "plan" as used in this item means any proposal which is to be submitted to security holders with respect to the payment or providing for the payment of any pension, retirement annuity or other deferred compensation to any person or persons.

2. If the plan is set forth in a formal contract or other document, three copies thereof shall be filed with the preliminary copies of the proxy statement and form of proxy at the time copies thereof are filed with the Commission pursuant to paragraph (a) of § 240.14a–6.

k. Item 15 specifies the financial statements required to be included in proxy statements in certain cases. It is proposed to add an instruction to paragraph (a) of this item to make clear that such statements are to be prepared and certified in accordance with Part 210. The proposed instruction would read as follows:

Instruction. Such statements shall be prepared and certified in accordance with Part 210.

l. Item 19 calls for a description of matters which are to be submitted to a vote of security holders but which are not required to be so submitted. It is proposed to amend the item to require, in lieu of a statement of the general effect of such submission and the effect of a negative vote on the matter, a statement as to what action is intended to be taken by the management in the event of a negative vote by the security holders. Item 19 as so amended would read as follows:

Item 19. Matters not required to be submitted. If action is to be taken with respect to any matter which is not required to be submitted to a vote of security holders, state the nature of such matter, the reasons for submitting it to a vote of security holders and what action is intended to be taken by the management in the event of a negative vote on the matter by the security holders.

[F. R. Doc. 52–1456; Filed, Feb. 5, 1952; 8:45 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 52–4]

APPROVAL OF EQUIPMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited below, the following approvals of equipment are prescribed and shall be effective for a period of five years from date of publication in the FEDERAL REGISTER unless sooner canceled or suspended by proper authority:

LIFE PRESERVERS, FIBROUS GLASS, ADULT AND CHILD (JACKET TYPE)

Approval No. 160.005/1/0, Model 51 adult fibrous glass life preserver, U. S. C. G. Specification Subpart 160.005, manufactured by The American Pad & Textile Co., Greenfield, Ohio.

Approval No. 160.005/2/0, Model 55 child fibrous glass life preserver, U. S. C. G. Specification Subpart 160.005, manufactured by The American Pad & Textile Co., Greenfield, Ohio.

(R. S. 4405, 4417a, 4426, 4481, 4482, 4488, 4491, 4492, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 164, 166, 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 375, 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526e, 526p, 1333, 50 U. S. C. 1275; 46 CFR 160.005)

BUOYANT CUSHIONS, KAPOK, STANDARD

NOTE: Approved for use on motorboats of classes A, 1, or 2, not carrying passengers for hire.

Approval No. 160.007/112/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Elton A. Johnson Sailmakers, Inc., 1642 Northwest Seventeenth Avenue, Miami 35, Fla.

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 25.4–1, 160.007)

BUOYANT CUSHIONS, NON-STANDARD

NOTE: Cushions are approved for use on motorboats of classes A, 1, or 2, not carrying passengers for hire.

Approval No. 160.008/499/0, 14½" x 16" x 2" rectangular buoyant cushion, 22 oz. kapok, dwg. No. BC–1, dated Oct. 31, 1951, manufactured by Farber Brothers, Inc., 821–841 Linden Avenue, Memphis, Tenn.

Approval No. 160.008/500/0, 14" x 18¼" x 2" rectangular buoyant cushion, 24 oz. kapok, dwg. No. BC–2, dated Oct. 31, 1951, manufactured by Farber Brothers, Inc., 821–841 Linden Avenue, Memphis, Tenn.

Approval No. 160.008/502/0, 12" x 48" x 2" rectangular buoyant cushion, 51 oz. kapok, dwg. dated Nov. 8, 1951, manufactured by The Safegard Corp., Box 66, Station B, Cincinnati 22, Ohio.

Approval No. 160.008/503/0, 15" x 48" x 2" rectangular buoyant cushion, 64 oz. kapok, dwg. dated Nov. 8, 1951, manufactured by The Safegard Corp., Box 66, Station B, Cincinnati 22, Ohio.

Approval No. 160.008/504/0, 18" x 18" x 2¼" rectangular buoyant cushion, 38 oz. kapok, dwg. No. SK 9784, dated Nov. 29, 1951, manufactured by the Chris-Craft Corp., Algonac, Mich.

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 25.4–1, 160.008)

WINCHES, LIFEBOAT

Approval No. 160.015/60/0, Type MP–31 lifeboat winch for use with mechanical davits, fitted with wire rope not more than 7/16 inch in diameter and with not more than 2 wraps of the falls on the drums. Approval is limited to mechanical components and for a maximum working load of 4,000 pounds pull at the drums (2,000 pounds per fall). Identified by arrangement dwg. No. 1495–1 dated Jan. 8, 1951, and revised Sept. 19, 1951, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York, N. Y.

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. 1275; 46 CFR 33.10–5, 59.3a, 60.21, 76.15a, 94.14a, 160.015)

CONTAINERS, EMERGENCY PROVISIONS AND WATER

Approval No. 160.026/18/0, Container for emergency drinking water, dwg. No. A–104, dated Sept. 11, 1951, manufactured by H & M Packing Corp., 913 Ruberta Avenue, Glendale 1, Calif.

(R. S. 4405, 4417a, 4426, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 489, 1333, 50 U. S. C. 1275; 46 CFR 33.15–1, 59.11)

LIFEBOATS

Approval No. 160.035/12/1, 18.0′ x 5.7′ x 2.5′ steel, oar-propelled lifeboat, 15-person capacity, identified by general arrangement dwg. No. G–1815, dated July 25, 1951, revised Aug. 28, 1951, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York, N. Y. (Supersedes Approval No. 160.035/12/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 160.035/85/1, 12.0′ x 4.4′ x 1.9′ steel, oar-propelled lifeboat, 6-person capacity, identified by general arrangement and construction dwg. No. 49R–1213 dated Aug. 16, 1951, manufactured by Lane Lifeboat and Davit Corp., 8920 Twenty-sixth Avenue, Brooklyn 14, N. Y. (Supersedes Approval No. 160.035/85/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 160.035/90/1, 18.0′ x 6.0′ x 2.4′ steel, oar-propelled lifeboat, 15-person capacity, identified by general arrangement and construction dwg. No. 49R–1812, dated Oct. 17, 1950, and revised Nov. 8, 1950, manufactured by Lane Lifeboat & Davit Corp., 8920 Twenty-sixth Avenue, Brooklyn 14, N. Y. (Supersedes Approval No. 160.035/90/0 published in the FEDERAL REGISTER July 31, 1947.)

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 4492, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 396, 404, 474, 481, 489, 490, 1333, 50 U. S. C. 1275; 46 CFR 33.01–5, 59.13, 76.16, 94.15, 113.10, 160.035)

BOILERS, HEATING

Approval No. 162.003/125/0, Crane 30 cast iron sectional steam or hot water heating boiler, dwg. No. DR–26746, Revision B dated Dec. 12, 1951, maximum design pressure 15 p. s. i., approval limited to bare boiler, manufactured by Crane Co., 836 South Michigan Avenue, Chicago 5, Ill.

Approval No. 162.003/126/0, Crane 40 cast iron sectional steam or hot water heating boiler, dwg. No. DR–26747, Revision B dated Dec. 12, 1951, maximum design pressure 15 p. s. i., approval limited to bare boiler, manufactured by Crane Co., 836 South Michigan Avenue, Chicago 5, Ill.

Approval No. 162.003/127/0, Type Eco-Scotch, horizontal fire tube steam heating boiler, welded steel plate construction, dwg. Nos. 88529, Revision B dated Nov. 28, 1951 and 88541, Revision A dated Nov. 28, 1951, maximum design pressure 30 p. s. i., approval limited to bare boiler, manufactured by Erie City Iron Works, Erie, Pa.

(R. S. 4405, 4417a, 4418, 4426, 4433, 4434, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 412, 489, 1333, 50 U. S. C. 1275; 46 CFR Part 52)

FIRE EXTINGUISHERS, PORTABLE, HAND, DRY CHEMICAL TYPE

Approval No. 162.010/3/1, Ansul M4 dry chemical type hand portable fire extinguisher, assembly dwg. No. DS–1785 dated Sept. 27, 1950, no revision, name plate dwg. No. DS–1780 dated Sept. 26, 1950, no revision, and Parts List Index revised June 27, 1951, manufactured by Ansul Chemical Co., Marinette, Wis. (Supersedes Approval No. 162.010/3/0 published in the FEDERAL REGISTER Mar. 21, 1951.)

Approval No. 162.010/13/0, Ansul M–4–B dry chemical type hand portable fire extinguisher, assembly dwg. No. DS–2218 dated June 21, 1951, no revision, name plate dwg. No. DS–2217 dated June 21, 1951, no revision, and Parts List Index dated June 27, 1951, manufactured by Ansul Chemical Co., Marinette, Wis.

(R. S. 4405, 4417a, 4426, 4479, 4491, 4492, 49 Stat. 1544, 54 Stat. 165, 166, 346, 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 472, 489, 490, 526g, 526p, 1333, 50 U. S. C. 1275, 46 CFR 25.5–1, 26.3–1, 27.3–1, 28.3–5, 34.25–1, 61.13, 77.13, 95.13, 114.15)

VALVES, SAFETY (FOR STEAM HEATING BOILERS)

Approval No. 162.012/2/0, No. 2568 cast iron body brass base, pop safety valves for steam heating boilers, dwg. No. A–25718, Revision C dated Nov. 2, 1950, approved in the following sizes for a maximum pressure of 15 p. s. i., manufactured by Crane Co., 836 South Michigan Avenue, Chicago 5, Ill.:

Size (inches):	*Capacity, pounds/hour*
¾	360
1	580
1¼	870
1½	1,125
2	2,140
2½	3,485
3	4,865

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 375, 391a, 392, 404, 411, 489, 367, 1333, 50 U. S. C. 1275; 46 CFR 52.65)

VALVES, SAFETY RELIEF LIQUEFIED COMPRESSED GAS

Approval No. 162.018/18/1, Consolidated Type 1610W, spring-loaded nozzle type safety relief valve, for liquefied petroleum gas service, metal-to-metal valve seat; dwg. No. W–9–B6, dated Apr. 4, 1947, Revision 1, 300 p. s. i. primary service pressure rating; flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Size (nominal inlet x outlet) and nozzle area (sq. in.)					
	3″ x 4″—1.986		4″ x 6″—3.079		6″ x 8″—11.95	
	Air	LP-gas	Air	LP-gas	Air	LP-gas
100	3,850	3,260	5,970	5,060	23,170	19,640
150	5,550	4,860	8,600	7,530	33,390	29,240
200	7,250	6,720	11,230	10,420	43,610	40,460
250	8,950	8,860	13,870	13,730	53,830	53,300

(Supersedes Approval No. 162.018/18/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 162.018/19/1, Consolidated Type 1611W, spring-loaded nozzle type safety relief valve, for liquefied petroleum gas service, metal-to-metal valve seat; dwg. No. W–9–B6, dated Apr. 4, 1947, Revision 1, 600 p. s. i. primary service pressure rating for sizes 3″ and 4″, 300 p. s. i. for 6″ diameter; flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured at 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Size (nominal inlet x outlet) and nozzle area (sq. in.)					
	3″ x 4″—1.986		4″ x 6″—3.079		6″ x 8″—11.95	
	Air	LP-gas	Air	LP-gas	Air	LP-gas
100	3,850	3,260	5,970	5,060	23,170	19,640
150	5,550	4,860	8,600	7,530	33,390	29,240
200	7,250	6,720	11,230	10,420	43,610	40,460
250	8,950	8,860	13,870	13,730	53,830	53,300

(Supersedes Approval No. 162.018/19/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 162.018/20/1, Consolidated Type 1612W, spring-loaded nozzle type safety relief valve, for liquefied petroleum gas service, metal-to-metal valve seat; dwg. No. W–9–B6, dated Apr. 4, 1947, Revision 1, 300 p. s. i. or 600 p. s. i. primary service pressure rating for sizes 3″ and 4″, 300 p. s. i. for 6″ diameter; flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured at 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Size (nominal inlet x outlet) and nozzle area (sq. in.)					
	3″ x 4″—1.986		4″ x 6″—3.079		6″ x 8″—11.95	
	Air	LP-gas	Air	LP-gas	Air	LP-gas
100	3,850	3,260	5,970	5,060	23,170	19,640
150	5,550	4,860	8,600	7,530	33,390	29,240
200	7,250	6,720	11,230	10,420	43,610	40,460
250	8,950	8,860	13,870	13,730	53,830	53,300

(Supersedes Approval No. 162.018/20/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 162.018/21/1, Consolidated Type 1613AW, spring-loaded nozzle type safety relief valve, for liquefied petroleum gas service, metal-to-metal valve seat; dwg. No. W–9–B6, dated Apr. 4, 1947, Revision 1, 300 p. s. i. primary service pressure rating; flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured at 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Size (nominal inlet x outlet) and nozzle area (sq. in.). 4" x 6"—4.695	
	Air	LP-gas
100	9,100	7,710
150	13,120	11,490
200	17,130	15,890
250	21,150	20,940

(Supersedes Approval No. 162.018/21/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 162.018/22/1, Consolidated Type 1613BW, spring-loaded nozzle type safety relief valve, for liquefied petroleum gas service, metal-to-metal valve seat; dwg. No. W-9-B6, dated Apr. 4, 1947, revision 1, 300 p. s. i. primary service pressure rating; flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured at 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Size (nominal inlet x outlet) and nozzle area (sq. in.). 4" x 6"—4.695	
	Air	LP-gas
100	9,100	7,710
150	13,120	11,490
200	17,130	15,890
250	21,150	20,940

(Supersedes Approval No. 162.018/22/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 162.018/24/1, Consolidated 4" Type 1661, spring-loaded, internal type safety relief valve, for liquefied compressed gas service, valve disc seat fitted with "O" ring gasket; dwg. No. CM-4-1661, approved for a maximum set pressure of 250 p. s. i., flow rated at 110 percent of the following set pressures (discharge in cubic feet per minute measured at 60° F. and 14.7 p. s. i. a.), manufactured by Manning, Maxwell & Moore, Inc., 2415 East Thirteenth Place, Tulsa 4, Okla.:

Set pressures	Air	LP-gas
100	5,490	4,650

[CGFR 52-5]

TERMINATION OF APPROVAL OF EQUIPMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited below, the following approvals of equipment are terminated because the items of equipment covered are no longer being manufactured for marine service:

BUOYS, LIFE, RING, CORK OR BALSA WOOD

Termination of Approval No. 160.009/34/0, 30-inch cork ring life buoy, U. S. C. G. Specification Subpart 160.009, manufactured by Western Canvas Products Co., 417 East Pine Street, Seattle 22, Wash. (Approved FEDERAL REGISTER dated June 1, 1951.)

Termination of Approval No. 160.009/35/0, 30-inch balsa wool ring life buoy, U. S. C. G. Specification Subpart 160.009, manufactured by Western Canvas Products Co., 417 East Pine Street, Seattle 22, Wash. (Approved FEDERAL REGISTER dated June 1, 1951.)

(R. S. 4405, 4417a, 4426, 4482, 4488, 4491, sec. 11, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 164, 166, 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 396, 404, 475, 481, 489, 526e, 526p, 1333, 50 U. S. C. 1275; 46 CFR 25.4-1, 33.01-5, 33.40-1, 59.56, 60.49, 76.53, 94.53, 113.46, 160.009)

CONDITIONS OF TERMINATION OF APPROVALS

The termination of approvals of equipment made by this document shall be made effective upon the thirty-first day after the date of publication of this document in the FEDERAL REGISTER. Notwithstanding this termination of approval on any item of equipment, such equipment manufactured before the effective date of termination of approval may be used on merchant vessels so long as it is in good and serviceable condition.

Dated: January 30, 1952.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard,
Commandant.

OFFICE OF FIELD SERVICE

LOCATION OF FIELD OFFICES

Field offices are located in the following cities. National Production Authority information can also be obtained at these offices. (This listing supersedes the one appearing in 16 F. R. 4815):

Albany, N. Y., 61 Columbia Street.
Albuquerque, N. Mex., Hanosh Building, 203 West Gold Avenue.
Appleton, Wis., 214 North Superior Street.
Atlanta 3, Ga., 418 Atlanta National Building, 50 Whitehall Street SW.
Augusta, Ga., 210 Maxwell House, 1002 Green Street.
Baltimore 2, Md., 1408 Court Square Building, 200 East Lexington Street.
Barnwell, S. C., County Office Building.
Birmingham 3, Ala., 246 Federal Building, Eighteenth Street and Fifth Avenue North.
Boise, Idaho, K. D. S. H. Building, 311 North Tenth Street.
Boston, Mass., 40 Broad Street.
Bridgeport 9, Conn., 304 Post Office Building, 120 Middle Street.
Buffalo 3, N. Y., 504 Federal Building, 117 Ellicott Street.
Butte, Mont., 306 Federal Building.
Charleston 4, S. C., Area 2, Sergeant Jasper Building, West End Broad Street.
Charleston 1, W. Va., Chamber of Commerce Building, 3 Capitol Street.
Charlotte, N. C., 203 Lloyd Building, 317 South Tryon Street.
Chattanooga 2, Tenn., 719 James Building, Eighth and Broad Streets.
Cheyenne, Wyo., 308 Federal Office Building, Twenty-First Street and Carey Avenue.
Chicago 1, Ill., 1763 LaSalle-Wacker Building, 221 North LaSalle Street.
Cincinnati 2, Ohio, 1404 Federal Reserve Bank Building, 105 West Fourth Street.
Cleveland 14, Ohio, 410 Union Commerce Building, 925 Euclid Avenue.
Columbia 1, S. C., 116 Palmetto State Life Building, 1310 Lady Street.
Columbus, Ohio, 312 Trautman Building, 209 South High Street.
Dallas 2, Tex., Room 1114, 1114 Commerce Street.
Davenport, Iowa, 310 Kahl Building, Third at Ripley Street.
Dayton 2, Ohio, 1600 U. B. Building, Fourth and Main Streets.
Decatur, Ill., 102 Decatur Club Building.
Denver 2, Colo., 142 New Customhouse, Nineteenth and Stout Streets.
Des Moines, Iowa, 220 Savings & Loan Building, 206 Sixth Avenue.
Detroit 26, Mich., 1038 Federal Building, 230 West Fort Street.
Duluth 2, Minn., 325 U. S. Post Office.
El Paso, Tex., Chamber of Commerce Building, 310 San Francisco Street.
Erie, Pa., 200 Erie Commerce Building, Twelfth and State Streets.
Evansville, Ind., Claremont Building, 127 Locust Street.
Fargo, N. Dak., 207 Walker Building, 621 First Avenue North.
Fort Wayne 2, Ind., 507 Strauss Building, 809 South Calhoun Street.
Grand Rapids, Mich., Davenport Institute, 4 Fulton Street East.
Hartford 1, Conn., 224 Post Office Building, 135 High Street.
Honolulu, T. H., Dillingham Building.
Houston 2, Tex., 501 Republic Building, 1018 Preston Avenue.
Indianapolis 4, Ind., Suite 410, 224 North Meridian Street.
Jackson, Miss., 205 Fidelity Building, 426 Yazoo Street.
Jacksonville, 1, Fla., 425 Federal Building, 311 West Monroe Street.
Kansas City 6, Mo., 700 Pickwick Building, 903 McGee Street.
Knoxville, Tenn., 313 U. S. Post Office and Courthouse Building, Main Avenue and Walnut Street.
Little Rock, Ark., U. S. O. Building, 110 Third Street.
Los Angeles 15, Calif., 502 Rives Strong Building, 112 West Ninth Street.
Louisville 2, Ky., 631 Federal Building.
Lubbock, Tex., Cotton Exchange Building, 1005½ Thirteenth Street.
Manchester, N. H., 304 Merchants Bank Building, 839 Elm Street.
Memphis 3, Tenn., 229 Federal Building.
Miami 32, Fla., 947 Seybold Building, 36 Northeast First Street.
Milwaukee 2, Wis., 225 Mitchell Building, 207 East Michigan Street.
Minneapolis 2, Minn., 207 Minnesota Federal Savings & Loan Building, 607 Marquette Avenue.

Mobile 10, Ala., 308 Federal Building, 109–13 St. Joseph Street.
Montpelier, Vt., Second Floor Willard Block Building, 79 Main Street.
Nashville 3, Tenn., 410 Nashville Trust Building, 315 Union Street.

National Production Authority

[Suspension Order 6; Docket No. 9]

AMERICAN STEEL AND IRON WORKS, INC., AND L. A. L. JONES

SUSPENSION ORDER

A hearing having been held in the above entitled matter on the 16th day of January 1952, before Stanley H. Johnson, duly designated a Hearing Commissioner of the National Production Authority by Walter H. Foster, Chief Hearing Commissioner, to hear the issues on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16–06 (16 F. R. 8799), dated August 30, 1951; and

The respondents, American Steel and Iron Works, Inc., and L. A. L. Jones, having been duly apprised of the specific violation charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings, and appearing by L. A. L. Jones, as president of said corporation, and upon his own behalf, and being at such hearing advised, but not represented, by counsel, the Commissioner made the following findings of fact, conclusions, and order:

Findings of fact. Respondents appeared by L. A. L. Jones, as president of the corporation, and upon his own behalf, acknowledged receipt of a copy of the charging letter and Statement of Charges, admitted without objection as Exhibits 2 and 3, and were instructed by the enforcement counsel prior to the hearing and by the Commissioner at the hearing of their procedural rights. There was offered by enforcement counsel, and admitted with the consent of the respondents by L. A. L. Jones, a stipulation containing an agreed statement of facts (Exhibit 4) signed by the corporation by L. A. L. Jones as authorized by its directors (Exhibit 5) and by L. A. L. Jones upon his own behalf upon the basis of which the Commissioner finds the following facts.

1. During the period from February 25, 1951, to September 30, 1951, American Steel and Iron Works, Inc., having had and maintained a scheduled method and rate of operation which required a practicable minimum working inventory of no more than 85 tons of steel for each 45 days during the afore-mentioned period and having had an inventory of 251 tons of steel at the beginning of the said period, did accept and receive 372 tons of steel during the said period.

2. During the period from February 25, 1951, to September 30, 1951, the American Steel and Iron Works, Inc., herein received 141 tons of steel in excess of the quantity of steel necessary to perform its operations and in excess of its practicable minimum inventory requirements.

3. During the period February 25, 1951, to September 30, 1951, the American Steel and Iron Works, Inc., herein failed to maintain and retain records of inventories, receipts, deliveries, and use of materials and of transactions pertaining to allotments of controlled materials.

4. During the period February 25, 1951, to September 30, 1951, L. A. L. Jones owned 33⅓ percent interest and managed the American Steel and Iron Works, Inc., and directed, supervised, and participated in all acts committed by American Steel and Iron Works, Inc.

Conclusions. 1. During the period February 25, 1951, to September 30, 1951, the American Steel and Iron Works, Inc., committed acts prohibited by section 10.5 of NPA Regulation 1, dated September 18, 1950, section 17 (a) of CMP Regulation No. 1, dated May 3, 1951, and section 3 (a) of CMP Regulation No. 2, dated May 10, 1951, to wit: The unauthorized acceptance and receipt of 141 tons of steel in excess of the practicable minimum inventory requirements of the American Steel and Iron Works, Inc.

2. During the period February 25, 1951, to September 30, 1951, the American Steel and Iron Works, Inc., committed acts prohibited by section 10.14 of NPA Regulation 1, dated September 18, 1950, section 23 of CMP Regulation No. 1, dated May 3, 1951, and section 10 of CMP Regulation No. 2, dated May 10, 1951, to wit: Failure to maintain and retain records of inventories, receipts, deliveries, and use of materials and of transactions pertaining to allotments of controlled materials.

3. L. A. L. Jones committed acts prohibited by section 10.5 of NPA Regulation 1, dated September 18, 1950, section 17 (a) of CMP Regulation No. 1, dated May 3, 1951, section 3 (a) of CMP Regulation No. 2, dated May 10, 1951, section 10.14 of NPA Regulation 1, dated September 18, 1950, section 23 of CMP Regulation No. 1, dated May 3, 1951, and section 10 of CMP Regulation No. 2, dated May 10, 1951, in that the said L. A. L. Jones owning 33⅓ percent interest and managing American Steel and Iron Works, Inc., during the time the violations set forth in Conclusions 1 and 2 hereof were committed by it, directed, supervised, and participated in the commission of the said violations.

It appears from statements of L. A. L. Jones made at the hearing, not under oath, that the respondents' business consists of jobbing upon contract orders steel fabrication, such as storage tanks, smoke stacks, steel bins, and anything manufactured out of steel plate or structural shapes, requiring some 75 different items of steel, including structural steel shapes, bars, sheets, and plates; that respondents' purpose in acquiring the unauthorized steel was to fabricate it into items as required by customers from time to time; that respondent company had orders on hand in excess of its inventory allocation, including storage tanks for various defense agencies, and other governmental agencies, some of which orders, together with civilian orders on hand, may exceed the excess steel in respondent company's possession; and that the 90-day suspension requested by the Government may prevent fulfillment of some orders. Nevertheless, it appears that respondents did divert steel from its proper channel in violation of the regulations.

Accordingly, it is hereby ordered:

1. That all priority assistance be withdrawn and withheld from American Steel and Iron Works, Inc., its successors and assigns, and L. A. L. Jones for the period January 16, 1952, to April 15, 1952.

2. That all allocations and allotments of material be withdrawn and withheld from the American Steel and Iron Works, Inc., its successors and assigns, and L. A. L. Jones during the period January 16, 1952, to April 15, 1952.

3. That the American Steel and Iron Works, Inc., its successors and assigns, and L. A. L. Jones be prohibited from acquiring materials under control of the National Production Authority during the period January 16, 1952, to April 15, 1952.

This order was orally entered in respondents' presence at the close of the hearing. Copies of these written findings, conclusions, and order shall be served upon each of the respondents by registered mail or personal service.

Issued this 16th day of January 1952.

THE NATIONAL PRODUCTION AUTHORITY,
By STANLEY H. JOHNSON,
Hearing Commissioner.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10112]

WESTERN UNION TELEGRAPH CO.

HEARING IN CONNECTION WITH DISSEMINATION OF HORSE OR DOG RACING NEWS

In the matter of new classifications, regulations, and practices of The Western Union Telegraph Company in connection with use of interstate and foreign leased facilities for the dissemination of horse or dog racing news; Docket No. 10112.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of January 1952;

The Commission, having under consideration Transmittal Letter No. 3615 and a revised tariff schedule filed by The Western Union Telegraph Company to become effective February 1, 1952, designated as follows: The Western Union Telegraph Company, Tariff F. C. C. No. 219, 7th Revised Page 8, establishing new classifications, regulations, or practices applicable to interstate and foreign Leased Facilities; and, also, having under consideration requests for suspension of the revised tariff schedule filed by alleged users of Western Union's Leased Facilities, listed on Appendix No. 1, attached hereto, and the comments of Western Union with respect thereto;

It appearing, that the revised schedule contains a new provision which reads as follows:

The "customer or lessee" and each "authorized user" of facilities furnished under this tariff which are used for the dissemination of horse or dog racing news must be (1) a press association as defined in Western Union Tariff F. C. C. No. 205, amendments thereto and reissues thereof, (2) a publisher of a newspaper or other periodical publication which is entered as second-class matter in the United States Post Office Department, (3) a duly licensed radio or television broadcasting station, or (4) a person, firm or corporation engaged in the collection or transmission of horse or dog racing news to press associations, newspapers or radio stations for publication or broadcasting; and each "station" or "drop" on a circuit used for the dissemination of such racing news must be located in premises occupied by (1) a press association, (2) a person, firm or corporation who or which therein prints a publication entered as second-class matter in the United States Post Office Department, (3) a duly licensed radio or television broadcasting station, or (4) a person, firm or corporation engaged in the collection or transmission of horse or dog racing news to press associations, newspapers or radio stations for publication or broadcasting.

It further appearing, that the above-quoted new tariff provision was developed and filed by Western Union allegedly for the purpose of establishing "a further safeguard against the unlawful use of information transmitted over facilities furnished by the telegraph company and in an endeavor to end the harassment of its employees by law enforcement authorities";

It further appearing, that Western Union's presently effective Tariff F. C. C. No. 219, 6th Revised Page 8, contains a provision which reads as follows:

Facilities furnished under this tariff shall not be used for any purpose or in any manner directly or indirectly in violation of any federal law or the laws of any of the states through which the circuits pass or in which the equipment is located, and the Telegraph Company reserves the right to discontinue the service to any drop or connection or to all drops and connections when it receives notice from federal or state law enforcement agencies[1] that the service is being used contrary to law.

It further appearing, that the Commission is unable to determine from an examination of the above-mentioned revised tariff schedule whether the above-quoted new tariff provision will be lawful under the Communications Act of 1934, as amended;

It further appearing, that if the above-quoted new tariff provision is permitted to become effective on the date specified in the revised tariff schedule, the rights and interests of the public may be adversely affected thereby;

It is ordered, That, pursuant to sections 201, 202, 204, 205 and 403 of the Communications Act of 1934, as amended, the Commission shall enter upon a hearing and investigation concerning the lawfulness of the classifications, regulations and practices set forth in the above-quoted new tariff provision;

It is further ordered, That, pursuant to section 204 of the Communications Act of 1934, as amended, the operation of the above-quoted new tariff provision is hereby suspended until the 1st day of May 1952, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in said tariff provision unless authorized by special permission of the Commission;

It is further ordered, That, without in any way limiting the scope of the investigation, it shall include consideration of the following specific matters:

1. Whether the above-quoted new tariff provision is reasonably designed to accomplish the purpose for which it allegedly was developed by Western Union and whether it is a reasonable or necessary restriction for the purpose of preventing the use of Western Union's leased facilities for any purpose or in any manner directly or indirectly in violation of any Federal law or the laws of any of the States through which the circuits pass or in which the equipment is located;

2. Whether Western Union's leased facilities are being used under its presently effective tariff schedules for the dissemination of horse or dog racing news by any type of customer or user not specified as eligible to use such facilities for such purpose in the above-quoted new tariff provisions and, if so, whether such use is for any purpose or in any manner directly or indirectly in violation of any Federal law or the laws of any of the States through which the circuits pass or in which the equipment is located;

3. Whether it is just and reasonable for Western Union to restrict the use of its leased facilities for the dissemination of horse or dog racing news to the types of customer or user specified in the above-quoted new tariff provision, if such use by others would not be for any purpose or in any manner directly or indirectly in violation of any Federal law or the laws of any of the States through which the circuits pass or in which the equipment is located;

4. Whether the above-quoted new tariff provision will abridge the freedom of speech or of the press or deprive users of any rights without due process of law in contravention of the Constitution of the United States;

5. Whether the furnishing of leased facilities for the dissemination of horse or dog racing news to the types of customers or users named as eligible in the above-quoted new tariff provision and the refusal of the same type of service to other customers or users constitutes unjust or unreasonable discrimination or undue or unreasonable preference, advantage, prejudice or disadvantage prohibited by section 202 (a) of the Communications Act;

6. Whether, in the light of the foregoing, the classifications, regulations, and practices set forth in the above-quoted new tariff provision are just, reasonable, and lawful under the Communications Act of 1934, as amended;

It is further ordered, That a copy of this order be filed in the offices of the Commission with the tariff schedule containing the provision herein suspended; that The Western Union Telegraph Company is hereby made party respondent to this proceeding; and that a copy hereof be served upon said respondent; upon the governor of each state; upon the agency of each state which has regulatory jurisdiction with respect to communication rates and

[1] The following new language is added at this point by 7th Revised Page 8, effective February 1, 1952: "acting within their apparent jurisdiction".

services; and upon the National Association of Railroad and Utilities Commissioners;

It is further ordered, That a copy of this order shall be served upon each of the users listed in Appendix No. 1, attached hereto, and that each such user is given leave to intervene and participate fully in the proceeding herein upon filing with the Commission, on or before February 15, 1952, a written notice of intention to participate in such proceeding;

It is further ordered, That a hearing be held in this proceeding at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 3d day of March 1952; and that Fanney N. Litvin is assigned to preside at such hearing.

Released: January 31, 1952.

[Ceiling Price Regulation 7, Section 43, Special Order 231, Amdt. 3]

C. F. HATHAWAY CO.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 231, issued on August 3, 1951, under section 43 of Ceiling Price Regulation 7, established ceiling prices at retail for men's shirts manufactured by C. F. Hathaway Co., Waterville, Maine, having the brand names "Hathaway," and "Logan." C. F. Hathaway Co. has applied for an extension of time to comply with the preticketing requirements of the special order. Its request is based on an inability to preticket in the manner set forth in the special order by the date specified.

On the basis of the application and after due consideration, the Director has determined to issue this amendment extending the applicant's time to preticket the articles covered by the special order. However, with respect to articles manufactured on and after March 15, 1952 and delivered before June 30, 1952, these articles must be preticketed with the statement "OPS—Sec. 43—CPR 7" and indicating either the retail ceiling price or the article's model, style, or lot number. On and after June 30, 1952, applicant must preticket all articles under the special order with a statement indicating the retail ceiling price of each article. After June 30, 1952, no sales at retail may be made under the terms of the special order unless the article is marked or tagged with the retail ceiling price.

Amendatory provisions. Special Order 231 issued on August 3, 1951 under section 43 of Ceiling Price Regulation 7 is amended by deleting paragraph 3 and substituting the following new paragraph 3:

3 (a) On and after June 30, 1952, unless a prior date is established under another regulation or order, C. F. Hathaway Co., prior to the delivery of any article listed in paragraph 1 of this special order, must mark each such article with the retail ceiling price under this special order or attach to the article a label, tag, or ticket, stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

(b) With respect to articles manufactured on and after March 15, 1952, and delivered prior to June 30, 1952, C. F. Hathaway Co. must label, tag, or ticket each article before or immediately after its manufacture is completed, either with the mark or statement required by subparagraph (a) of this paragraph or with a mark or statement which contains the article's model, style, or lot number and is in the following form:

OPS—Sec. 43—CPR 7
Model No. Four

(c) C. F. Hathaway Co. must supply each retailer to whom it delivers articles listed in paragraph 1 under this special order and preticketed in accordance with subparagraph (b) of this paragraph, with a price list containing a description including the model, style, or lot number of each article and the retail ceiling price for each article.

(d) Prior to June 30, 1952, upon receiving any article listed in paragraph 1 of this special order which has a label, tag, or ticket which does not state the retail ceiling price of such article, but which states the model, lot, or style number of the article, a retailer must, by reference to the price list supplied to him by C. F. Hathaway Co., determine the ceiling price for each such article and mark or tag it in accordance with the provisions of Section 51, of Ceiling Price Regulation 7.

(e) On and after June 30, 1952, no retailer may offer or sell any article listed in paragraph 1 of this special order under the terms of this special order unless it is marked in accordance with this paragraph. On and after June 30, 1952, unless the article is marked or tagged with the retail ceiling price, the retailer must comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

(f) Unless, on or before March 25, 1952, C. F. Hathaway Co. certifies in writing to the Uniform Pricing Section, Wholesale and Central Pricing Branch, Office of Price Stabilization, Washington 25, D. C. that it is complying with the provisions of this paragraph, this special order may be revoked.

Effective date. This amendment shall become effective January 31, 1952.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JANUARY 31, 1952.

[F. R. Doc. 52-1415; Filed, Jan. 31, 1952; 12:19 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 293, Amdt. 2]

METLOX MFG. CO.

CEILING PRICES AT RETAIL

Statement of considerations. This amendment to Special Order 293 establishes new retail ceiling prices for certain of the applicant's branded articles. These new retail ceiling prices are listed in paragraph 1 of the special order and marked with an asterisk. The ceiling prices established prior to this amendment and still in effect are listed without an asterisk.

The Director has determined, on the basis of information available to him, that the retail ceiling prices requested are in line with those already granted and are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

Amendatory provisions. Special Order 293 under Ceiling Price Regulation 7, section 43, is amended in the following respects:

1. Delete paragraph 1 of the special order and substitute therefor the following:

1. The following ceiling prices are established for sales by any seller at retail of pottery dinnerware manufactured or distributed by the Metlox Manufacturing Co., having the brand name "Poppytrail Pottery", and described in the manufacturer's application dated June 15, 1951, and supplemented and amended by the manufacturer's applications dated August 24, 1951, September 4, 1951 and October 16, 1951.

The ceiling prices listed below which are marked with an asterisk shall become effective on receipt of a copy of this order by the retailer, but in no event later than 30 days after the effective date of this order. Ceiling prices not marked with an asterisk are effective upon the effective date of this order. Sales may, of course, be made below the retail ceiling prices.

2. Delete paragraph 3 of the special order and substitute therefor the following:

3. *Notification to resellers*—(a) *Notices to be given by applicant.* (1) After receipt of this special order, a copy of this special order shall be sent by the applicant to each purchaser for resale on or before the date of the first delivery of any article covered in paragraph 1 of this special order.

(2) Within 15 days after the effective date of this special order, the applicant shall send a copy of this special order to each purchaser for resale to whom within two months immediately prior to the receipt of this special order the applicant had delivered any article covered by paragraph 1 of this special order.

(3) The applicant must notify each purchaser for resale of any amendment to this special order in the same manner.

(4) The applicant must supply each purchaser for resale other than a retailer with sufficient copies of this special order and any amendment to permit such purchasers for resale to comply with the notification requirements of this special order.

(b) *Notices to be given by purchasers for resale (other than retailers).* (1) A copy of this special order shall be sent by each purchaser for resale (other than retailers) to each of his purchasers on or before the date of the first delivery after receipt of a copy of this special order.

(2) Within 15 days of receipt of this special order, each purchaser for resale (other than retailers) shall send a copy of the order to each of his purchasers to whom, within two months prior to receipt of this special order, his records indicate he had delivered any article covered by paragraph 1 of this special order.

(3) Each purchaser for resale (other than retailers) must notify each purchaser of any amendment to this special order in the same manner.

Effective date. This amendment shall become effective January 31, 1952.

Michael V. DiSalle,
Director of Price Stabilization.

FEDERAL POWER COMMISSION

[Docket No. E-6405]

Scranton Electric Co.

NOTICE OF APPLICATION

January 31, 1952.

Take notice that on January 29, 1952, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by The Scranton Electric Company, a corporation organized under the laws of the Commonwealth of Pennsylvania and doing business in said State, with its principal business office at Scranton, Pennsylvania, seeking an order authorizing it to merge into its facilities the facilities of its wholly owned subsidiary Abington Electric Company by surrendering the

capital stock of the latter company for cancellation and assuming all of its outstanding obligations and liabilities, all as more fully appears in the application.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 18th day of February 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-1477; Filed, Feb. 5, 1952; 8:47 a. m.]

[Docket No. G-1760]

CITIES SERVICE GAS CO.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1952.

On August 10, 1951, Cities Service Gas Company (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, filed an application for a certificate of public convenience and necessity, and a supplement thereto on December 14, 1951, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas facilities subject to the jurisdiction of the Commission, as described in the application and supplement on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) [18 CFR 1.32 (b)] of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on August 28, 1951 (16 F. R. 8723).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 18, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application and supplement: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: January 31, 1952.

By the Commission.

[Docket No. G-1824]

NEW YORK STATE NATURAL GAS CORP.

ORDER FIXING DATE OF HEARING

JANUARY 31, 1952.

On October 29, 1951, the New York State Natural Gas Corporation (Applicant), a New York corporation having its principal place of business at New York City, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipe-line facilities, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 10, 1951 (16 F. R. 11512-11513).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on February 19, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: January 31, 1952.

By the Commission.

LEON M. FUQUAY, *Secretary.*

GENERAL SERVICES ADMINISTRATION

ATTORNEY GENERAL

DELEGATION OF AUTHORITY TO TAKE POSSESSION AND DISPOSE OF CERTAIN PROPERTY

1. Pursuant to the authority vested in me by provisions of the Federal Property and Administrative Services Act of 1949, as amended (Public Laws 152 and 754, 81st Congress), section 1 (f) of Delegation of Authority, dated July 21, 1951 (16 F. R. 7335), is hereby amended to read as follows: "(f) to pay such claims or any portion thereof, which he shall determine to be due and payable in accord with the statute above cited; *Provided, however,* That this authority shall extend to cash or negotiable instruments not to exceed five hundred dollars."

2. This amendment shall become effective on the date of its publication in the FEDERAL REGISTER.

Dated: January 30, 1952.

OFFICE OF DEFENSE MOBILIZATION

[CDHA 34]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

FEBRUARY 5, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Public Law 139, 82d Cong., 1st sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Knob Noster (Sedalia Air Force Base), Missouri, Area. (The area consists of Johnson County; Pettis County; and the Township of Windsor and the City of Windsor in Henry County; all in Missouri.)

This supersedes certification under Docket No. 345 dated December 26, 1951.

C. E. WILSON, *Director, Office of Defense Mobilization.*

[RC-30; No. 48]

LONE STAR, TEX., AREA

DETERMINATION AND CERTIFICATION OF A CRITICAL DEFENSE HOUSING AREA

FEBRUARY 5, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Lone Star, Texas, Area. (The area consists of all of Camp and Morris Counties; precincts 1, 2 and 8, including Hughes Springs, Linden and Avinger, in Cass County; precincts 1, 2, 3 and 6, including Jefferson City, in Marion County; precincts 1, 4, 5, 6 and 7, including Mount Pleasant, in Titus County; and precincts 2, 6 and 8, including Ore City, in Upshur County; all in Texas.)

This supersedes certification under Docket No. 48 dated December 27, 1951.

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

WILLIAM C. FOSTER,
Acting Secretary of Defense.
C. E. WILSON,
Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 812-728, 812-729]

HOME AND FOREIGN SECURITIES CORP. AND OILS AND INDUSTRIES, INC.

NOTICE OF APPLICATIONS, STATEMENT OF ISSUES, AND ORDER FOR HEARING

JANUARY 31, 1952.

Notice is hereby given that Home and Foreign Securities Corporation (H and F), and Oils & Industries, Inc., (O & I), have filed applications pursuant to the provisions of section 17 (b) of the Investment Company Act of 1940, requesting an order granting an exemption from the provisions of section 17 (a) of the act. The transactions involved propose the delivery by O & I of a number of shares of common stock, par value 10¢, of Intercoast Petroleum Corporation, (Intercoast) to be determined as set forth below, to H and F for all of the 12,822

shares of capital stock, par value $25, of the Colonial Trust Company, (Colonial), presently held by H and F.

H and F and O & I are Maryland corporations registered under the Investment Company Act of 1940 as closed-end, non-diversified, management investment companies, whose principal offices are located at 551 Fifth Avenue, New York 17, New York.

The corporate relationship of the companies involved at June 30, 1951, is set forth in the following tabulation:

	Percent common stock held
Pentson Corp.:	
Home & Foreign Securities Corp.	56.7
Colonial Trust Co.	32.06
Oils & Industries, Inc.	64.15
Colonial Trust Co.	19.55
National Paper & Type Co.	15.39
Intercoast Petroleum Corp.	53.32
Intercontinental Holdings, Ltd.	[1] 100.00
Intercontinental Holdings, Ltd.	53.32
National Paper & Type Co.	35.24
Colonial Travel Bureau	70.00

[1] Nonvoting nondividend preference stock.

Pentson Corp. is controlled 100 percent by Arthur S. Kleeman.

At June 30, 1951, the preferred stock of H and F, which has a claim in liquidation of $55 per share plus cumulative dividends at the annual rate of $3 per share, had an aggregate liquidating claim of $1,882,572, of which $1,023,307 represented dividends in arrears since 1929. At the same date H and F reported its net assets at $762,050.

According to the applications filed H and F proposes to exchange its Colonial stock at its book value as of the last day of the month preceding the date of the requested order upon this application and O & I proposes to exchange its Intercoast stock at its market value (the closing sale price for such stock on that date as reported on the Los Angeles Stock Exchange or, if there was no sale, the average of the bid and asked prices on such date). H and F carries its investment in Colonial at market value, which is substantially less than the net asset value basis proposed for the exchange. O & I presently carries its investment in Intercoast at book value which is less than the proposed market value basis of exchange. Upon consummation of the exchange, H and F and O & I propose, as controlling stockholders of Intercoast, to cause their Intercoast shares to be registered under the Securities Act of 1933 and to offer such shares under exchange offers to the holders of their outstanding shares of preferred stocks. The applications do not specify the nature or basis or timing of such proposed exchange offers.

For a more detailed statement of matters of fact all interested persons are referred to said applications which are on file in the offices of the Commission at 425 Second Street NW., Washington 25, D. C.

The Division of Corporation Finance has advised the Commission that, after an examination of the applications and a preliminary investigation conducted in connection therewith, the transactions for which the exemptions are sought appear to be integral parts of an over-all plan which has for its purpose the divestment by the investment companies of their interest in Intercoast and the consequent abandonment of their investment in the oil business, the retention of control of Colonial and of National Paper and Type Company (engaged exclusively in the export business) and the concentration of the investment activities of the investment companies in the international banking and export business; that in furtherance of the plan O & I acquired a 15.39 percent interest in National Paper and Type Company (National), Intercoast was caused to acquire a 35.24 percent interest in National, and thereafter Intercontinental Holdings, Ltd., a registered investment company (Intercontinental), was caused to be organized and to issue to Intercoast, an affiliated person, common stock and non-voting, non-dividend preference stock, which preference stock lacks the voting and dividend rights required by the act, and to assume long-term debt, which senior securities did not and do not enjoy the asset coverage required by section 18 of the act, in exchange for stock of National held by Intercoast; that Intercoast distributed as a dividend to its stockholders common stock of Intercontinental; and that Intercontinental was caused to lend cash to Intercoast.

Without prejudice to the specification of additional issues on further examination of the applications, the transactions already consummated and those proposed, the Division has advised the Commission that it deems the following issues to be raised by the applications and the related proposals:

1. Whether the over-all plan hereinbefore described is consistent with the investment policies stated in the applicants' registration statements under the act and with the general policies of the act.

2. Whether it was consistent with the stated investment policies of O & I to acquire securities of National, which is engaged exclusively in the export business.

3. Whether it was consistent with the policies of the investment companies to cause Intercoast, a producing oil company, to purchase securities of National.

4. Whether the organization of Intercontinental and the issuance of its securities was and is consistent with the investment policies of H and F and O & I, as stated in their registration statements filed under the act and with the business purposes of Intercoast.

5. Whether the organization of Intercontinental, the issuance and sale of its outstanding securities, and the assumption of long-term debt of Intercoast were properly consummated in the absence of orders of the Commission exempting those transactions from the provisions of sections 12 (d), 17 (a), 18 (a) (2) and 18 (i) of the act.

6. Whether the making of loans to Intercoast by Intercontinental was proper in the absence of exemption from the provisions of section 17 (a) (3) and 21 (b) of the act.

7. Whether, if the organization of Intercontinental and the issuance of its stock has been effected in contravention of the act and corrective action appears to be necessary or appropriate, consummation of the proposed transactions recited in the applications would be feasible or permissible.

8. Whether the terms of the proposed transactions and related proposals and transactions viewed in the light of the foregoing issues, including the consideration to be paid or received, is reasonable and fair and does not involve overreaching on the part of any person concerned.

It appearing to the Commission that said applications present questions of law and fact common to each of said applications and that a hearing on said applications is necessary and appropriate;

It is ordered, That the proceedings on the two applications be and the same are hereby consolidated; and

It is ordered, Pursuant to section 40 (a) of said act that a public hearing on the aforesaid applications be held on February 18, 1952 at 10:00 a. m., e. s. t., Room 193 of the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington, 25, D. C.

It is further ordered, That Richard Townsend or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing, and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-named Home and Foreign Securities Corporation, Oils & Industries, Inc., and to any other person or persons whose participation in such proceedings may be necessary or appropriate in the public interest or for the protection of investors. Any person desiring to be heard in said proceeding should file with the hearing officer or the Secretary of the Commission, on or before February 13, 1952, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-1454; Filed, Feb. 5, 1952; 8:45 a. m.]

[File No. 70-2563]

WEST PENN ELECTRIC CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER THE SUBSCRIPTION PRICE ON SALE OF COMMON STOCK AND THE RESULTS OF COMPETITIVE BIDDING

JANUARY 31, 1952.

The West Penn Electric Company ("West Penn Electric"), a registered holding company, having filed an application-declaration, with amendments thereto, proposing, among other things,

to offer to its stockholders rights to subscribe for the purchase of 440,000 additional shares of its no par value common stock on the basis of one additional share for each eight shares of common stock now held, and also proposing to offer such shares as are not subscribed for by its stockholders to underwriters, pursuant to the competitive bidding requirements of Rule U-50, at the subscription price to be determined by West Penn Electric, the underwriters' bids to specify an aggregate amount of compensation to be paid for their commitments; and

The Commission by order dated January 22, 1952, having granted and permitted to become effective the application-declaration, as amended, subject to the condition, among others, that the proposed issuance and sale of common stock shall not be consummated until the results of the competitive bidding, pursuant to Rule U-50, shall have been made a matter of record in this proceeding and a further order shall have been entered with respect thereto, and jurisdiction having been reserved therein over the payment of fees and expenses to be incurred in connection with the proposed transactions; and

West Penn Electric on January 31, 1952, having filed a further amendment to said application-declaration in which it is stated that West Penn Electric has designated a subscription price of $28.75 per share for the additional shares of its common stock, has invited bids, pursuant to Rule U-50, with respect to the compensation to be paid the underwriters for purchasing, at the subscription price of $28.75 per share, the common stock not taken by subscription and has received the following bids:

Bidding group headed by—	Amount of compensation bid		Aggregate net proceeds to company [1]
	Per share	Aggregate	
Lehman Bros. and Coleman, Sachs & Co.	$0.2350	$103,397.80	$12,546,602.20
Harriman Ripley & Co., Inc.	.2780	122,320.00	12,527,680.00
W. C. Langley & Co. and The First Boston Corp.	.2799	123,199.00	12,526,800.00

[1] After deducting amount of compensation bid only.

The amendment having further stated that West Penn Electric has accepted the bid of Lehman Brothers and Goldman, Sachs & Co., as set forth above; and

The record having been completed with respect to certain fees and expenses to be incurred in connection with the proposed transactions, which are estimated as set forth below:

S. E. C. registration fee	$1,452.00
Printing registration statements, etc	40,500.00
Printing subscription warrants	2,400.00
Transfer agent	4,200.00
Subscription agent	29,500.00
Registrar	1,500.00
Postage, envelopes, etc	7,300.00
Federal stamp tax	18,000.00
Listing fee	1,100.00
Advertising and miscellaneous	2,048.00
Total	108,000.00

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for said stock, the compensation to be paid the underwriters, or the fees and expenses set forth above, and it appearing that the record has not been completed with respect to the fees and expenses incurred for legal and accounting services in connection with the proposed transactions:

It is ordered, That the application-declaration, as further amended, be granted and permitted to become effective forthwith, subject to the condition that the jurisdiction heretofore reserved with respect to the payment of fees and expenses for legal and accounting services, be, and the same hereby is, continued, all other reservations of jurisdiction being released, and subject, further, to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 26758]

MOTOR-RAIL-MOTOR RATES BETWEEN PROVIDENCE, R. I., AND HARLEM RIVER, N. Y.

APPLICATION FOR RELIEF

FEBRUARY 1, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and Old Colony Motor Lines, Inc.

Commodities involved: All commodities.

Between: Providence, R. I., and Harlem River, N. Y.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Jean Felix Paulsen, Paris, France; Claim No. 40685; property described in Vesting Order No. 666 (8 F. R. 5047, April 17, 1943), relating to an undivided one-half part of all right, title and interest in and to United States Letters Patent Nos. 2,046,208; 2,052,071; 2,093,846 and 2,241,139.

Executed at Washington, D. C., on January 31, 1952.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 52-1493; Filed, Feb. 5, 1952; 8:50 a. m.]

CAMILLO CITO

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Camillo Cito, Brussels, Belgium; Claim No. 38723; property described in Vesting Order No. 315 (7 F. R. 9849, November 25, 1942) relating to United States Patent Application Serial No. 377,905 (now Patent No. 2,350,387), Patent Application Serial No. 384,768 (now Patent No. 2,311,368), Patent Application Serial No. 377,252 (now Patent No. 2,382,384) and Patent Application Serial No. 789,292 (Division of Patent Application Serial No. 377,905).

Executed at Washington, D. C., on January 31, 1952.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 52-1492; Filed, Feb. 5, 1952; 8:50 a. m.]
